## Demands Attorney Representing Her Also Take Dague's Case

### LOTS OF THINGS ARE BEING SUNK AT SINKING MEET

(Special To The News)  
LONDON, Jan. 27.—Delegates to ship sinking conference sunk as follows:  
This afternoon Ambassador Hugh Gibson sunk a six-foot putt and when Stimson almost sunk an approach, Dave Reed of the G. R. undyville club, an opponent, almost sunk his Adam's apple.  
Senator Robinson from the persimmon and pawpaw country, making his first appearance in slow company on English greens, sunk his Democratic identity behind a check plaid suit with knee breeches in happy discord.  
Dagues was the referee and sunk over two cans full of decomposed Carolina dry leaf during the attempt at festivities.  
It was a great day of relaxation after one solid week of doing nothing but attempting to pronounce the Japanese delegate Wakatsuki's name. Next week the agenda calls for the pronunciation of the French names.  
Yours,  
WILL ROGERS.

### PA NEW OBSERVES

When it is noted that the minimum temperature recorded during the past 24 hours is given at six below, people may look askance at the figure, but this was the temperature recorded when the thermometers were set at the local weather observation station at 9 o'clock Sunday morning. It continued to warm up gradually during the day and this morning, it stood at 29 degrees.  
The coldest weather of the year was recorded early Sunday morning, when the mercury stood at 8 degrees below zero at the local weather station.  
Pa New notes that there is a general disregard of the traffic light at Park avenue, which is going to result in a serious accident some of these days. Motorists will speed up and down Highland avenue, apparently oblivious to the traffic light and then when they get so close that it is impossible to stop when they do see that the signal is against them, they keep right on going.  
Sometime in the latter part of next month, a certain group of members of the Lions club of this city are going to play a return bowling game with a group of Butler men. Pa New is told. The local men say that this time they mean to win. The local bowlers are T. L. Nixon, Arthur J. Rees, George Smith, A. H. Bartlett, Dr. J. L. Reed, John Elliott, Earl Ramsey, Anthony Marino, Dr. Borland and Jack Dunfee.  
The News is in receipt of an unsigned communication asking that a clipping be reprinted in this paper. It so happens that the clipping enclosed was taken from The News.

When New Castle is going to get that new postoffice that's promised, Pa New would be gratified to learn. There's no question whatsoever as to the need for either an expansion of (Continued On Page Two)

### Hunt For Bodies Of Carl B. Eielson And Earl Borland

Discovery Of Ruins Of Eielson's Plane Revives Hunt For Fliers  
LITTLE HOPE HELD  
THEY ARE ALIVE  
Plane Ruins On Siberian Coast Show Crash Was Terrific  
(International News Service)  
SEATTLE, Wash., Jan. 27.—Planes and dog sled carried on their search today along the barren Siberian coastline for the bodies of Lieut. Carl Ben Eielson, noted Arctic flier, and Earl Borland, his mechanic.  
Their wrecked cabin plane, found ten miles inland from the Siberian coast, is all that searchers have been able to find which might indicate the fate of the two men.  
Buried beneath drifts of snow, the torn fuselage and wings bore mute evidence of a terrific crash which tore the plane's power plant from its fastenings and hurled it yards away. Workers were to dig away the snow that surrounds the plane in their search for further trace of the men.  
Although the engine was dislodged, one wing was crushed and the tail torn off, the cabin was not damaged. Inside, however, pilots Joe Crosson and Harold Gilliam, who made the discovery, found their thirty days' food supply untouched.  
A careful search of the plane itself and the drifts of snow that all but buried it revealed no trace of the two fliers. Some expressed the hope that the two men made their way to a reindeer camp nearby, but this theory was given little credence.  
Crosson and Gilliam, flying from ice-bound schooner Nanuk Saturday, sighted the plane's wreckage ninety miles southeast of their flying base and ten miles inland from the coast.  
Hunt Two Men  
The two fliers returned to the Nanuk and reported the ship demolished. Yesterday they set out for the crash once more, made a successful landing and examined the plane minutely. They found among other things that the cabin was practically undamaged by the fall.  
Search for the two men centers in the Amguema river valley, whence recent reports came through Moscow stating that natives in that neighborhood had found the wrecked plane. Eielson and his companion have been the objects of a widespread aerial search since their disappearance November 9, while the two airmen were ferrying the crew and furs from the ice-bound Nanuk to safety. They had already brought six men to land.  
Moscow, Jan. 27.—Boris Chuchnovsky, famous Soviet aviator landed at Tashet, Siberia, today, enroute for North Cape to aid in the search for the bodies of Carl Ben Eielson and Earl Borland.

### Cold Wave Relief Is Promised Today

Three Deaths From Exposure In Pittsburgh; 16 Below In Venango County  
(International News Service)  
PITTSBURGH, Jan. 27.—Three deaths from exposure and one in an automobile accident during the blinding snow storm here marked the weather toll over the week-end as near zero weather held sway.  
There is relief promised today with a temperature rising to 25 or 30 degrees, followed by a minor drop in the later part of the night.  
Western Pennsylvania as a whole was caught in the same cold wave, with the northern part of the state reporting temperatures as low as 16 degrees below zero in Venango county.

### Naval Sessions In Second Week, Foundation Laid

No Definite Results Likely Until Agenda Is Agreed Upon By Delegates  
BATTLESHIPS ARE NOT TALKED ABOUT  
"Big Five" Is In Conference Today To Submit Temporary Observations  
By GEORGE R. HOLMES,  
International News Service Staff Correspondent  
LONDON, Jan. 27.—The London naval arms conference sailed into its second week today with some progress made toward clearing away the diplomatic underbrush but with the biggest problems confronting it scarcely touched upon as yet.  
The "big five" met at 10 Downing street at ten o'clock this morning to submit their observations on a tentative agenda which Premier MacDonald asked the other four chief delegates to study over the week-end.  
Await Agenda Agreement  
Until the agenda is agreed upon the conference can hardly be expected to produce results for it resembles an automobile with its engine running but with its gears unmeshed until such an agreement is reached.  
The discussion of the agenda brought out a number of conflicting views which when boiled down produced one big question—should the conference start with the discussion of national needs or should it plunge into limitation of definite categories below battleships right at the outset.  
All discussions of limitation of battleships have been ruled out until an agreement has been reached on limitation of auxiliary ships. This decision has been reached in accordance with the American viewpoint which holds that this conference was called primarily to effect limitation of cruisers and other auxiliary craft.  
No Existing Treaties  
At the present time there are no (Continued On Page Two)

### British Abandon Cruiser Building

Work On Two Big Cruisers Of 10,000 Tons Definitely Abandoned  
(International News Service)  
LONDON, Jan. 27.—The British admiralty today announced that the construction of the 10,000 ton cruisers Surrey and Northumberland has been definitely abandoned.  
This news was accepted in naval conference circles as evidence that the British government fully anticipates the agreement reached by President Hoover and Premier MacDonald in their conversations last fall for cruiser parity at fifteen ships each will become effective at the conference.

### Police Woman Denies Report

Says There Was No Trouble When Prisoners Were Taken Off Train  
Mrs. Minnie McKibben, city police woman, who had personal supervision of Mrs. Irene Schroeder, the blonde trigger woman, during the trip from Phoenix, Arizona, to this city, sustained the surprise of her life, when she heard that she had been knocked down in an alleged argument over the custody of Dague and Irene at Mahoningtown, when they left the train to go to the county jail.  
The first she knew of it was when it was broadcasted the following morning. That was the first she knew, she states, that there had been either trouble or she had been mistreated.  
She states positively that there was not any trouble, and that the plans were carried out according to schedule.  
District Attorney John S. Powers also states that the reports which involved him and some investigators from his office, are untrue, pointing out the convincing fact that some of the people credited with being in the trouble were not even at the scene of the alleged trouble.

### American Girl Gives Impression Of London

American Girl Stenographer With Naval Delegation Not Much Impressed  
Englishmen Not So Good Looking; Girls Lack Personality; London Is Dirty

Stenographer in the U. S. State Department, now in London with American Delegation to Five Power Naval Conference. Written Exclusively for International News Service.  
(Copyright, 1930 by International News Service)  
LONDON, Jan. 27.—This thing called London needs a spring cleaning!  
About the first thing that impressed us upon our arrival here a week ago last Friday was the dirty look which all the buildings have. They look as if they had never seen a cleaning. But, I guess, it is the weather, and because they are so old, anyway.  
After the cleanliness of our own Washington, almost any place would look dirty.

### Large Tomb Is Being Explored

University Of Pennsylvania Exploration Party Makes Valuable Discovery  
BELIEVED TO BE 5000 YEARS OLD  
(International News Service)  
PHILADELPHIA, Jan. 27.—What is believed to be one of the largest tombs ever discovered in Egypt has been located by the exploration expedition of the University of Pennsylvania in its first few months of archeological work at Mejdum during reports made public today from Alan Rowe field director of the expedition.  
The tomb, a mastaba, constructed of stone, evened out, is about 32 feet long by 160 feet wide. It is believed to be about 5,000 years old. The name of the owners is so far unknown but it is probable that it contains several burial chambers some of which may never have been plundered.  
Dates Away Back  
"Undoubtedly the tomb dates from the same period as the Great Pyramid of Mejdum; that is, the fourth dynasty or about 2800 B. C." Rowe stated in his report.  
After removing the debris from the tops and sides of the huge retaining walls it was discovered the walls (Continued On Page Two)

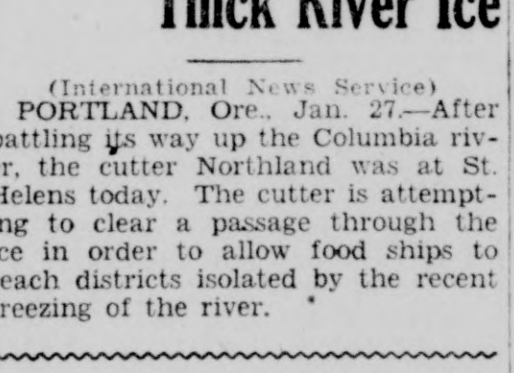

### Cutter Battles Thick River Ice

(International News Service)  
PORTLAND, Ore., Jan. 27.—After battling its way up the Columbia river, the cutter Northland was at St. Helens today. The cutter is attempting to clear a passage through the ice in order to allow food ships to reach districts isolated by the recent freezing of the river.

### Graham Is Burned By Powder Flash

Accident Occurs At Detention Home While Picture Is Being Taken  
Joseph M. Graham, a New Castle man who is associated with a Youngstown newspaper is in the Jameson Hospital suffering from severe facial burns received following an argument in the Detention Home on Saturday afternoon, January 25.  
With another member of the newspaper he represents, Mr. Graham had accompanied Mrs. Mayme Baum and Mrs. Martha Schoenian, sisters of Irene Schroeder, to the Detention Home where Probation Officer Jack M. Dunlap had permitted them to see Donnie.  
A picture was to be taken of the two women and Donnie was to be taken, but objection was raised when other newspapers attempted to get a picture for their papers.  
A Mr. Shaffer of a Pittsburgh newspaper was preparing to take a picture when Mr. Graham objected and an argument ensued. As the two men were arguing the flashlight charge of the Pittsburgh photographer exploded directly in Mr. Graham's face, burning him severely.  
He was rushed to the Jameson Memorial Hospital and for a time it was feared that his sight might be impaired. Examination proved that the extent of his burns were the cheeks and forehead, and it is expected that he will be out of the hospital tonight. His friends here rejoice that his injuries were not more severe.

### BLONDE PRISONER SEES ATTORNEY FOR FIRST TIME TODAY

Change Of Venue Will Probably Be Asked For Defendant  
POWERS TO ASK FOR FIRST DEGREE  
Mrs. Schroeder Sees Son In Jail—Corporal Paul's Family Hires Attorney  
Irene Schroeder's first step toward defending herself against the charge of the murder of Corporal Brady Paul started this morning when one of her counsel, Attorney Kedgewin Powell of Youngstown, O., visited her in her cell.  
Her determination to stick to W. Glenn Dague, here paroled after a gun battle with an Arizona posse was indicated in her first question to Powell. "Are you going to defend Glenn Dague?"  
Answered that such action had not yet been settled she said, "if you don't defend Glenn you can't defend me. If he goes to the chair, I go with him."  
Attorney Powell then assured her that everything would be done properly and the two went into conference. What was said in that conference is of course a professional secret but after talking to her for fifteen or twenty minutes former District Attorney J. Elder Bryan was called in and joined the conference.  
Probably So-Counsel  
In all probability Mr. Bryan will be co-counsel with former Judge W. P. Barnum and Attorney Kedgewin Powell. At the conclusion of the conference this morning, Mr. Powell said, "the decision on co-counsel rests with Judge Barnum. He will make any statements concerning Mr. Bryan. I will say that Mr. Bryan was a part of the conference this morning and sat in on the questioning of Irene Schroeder."  
Asked what Irene had said, what she wanted to do and what her condition was Mr. Powell answered only the last part of the question. "She is not in very good physical shape."

### CONGRESS TAKES UP AERIAL LEGISLATION

'Air Minded Congress' Takes Up Matter Of Trans-Oceanic Dirigible Lines  
Is Plan Of Law Makers To Speed Up Airship Development In Future  
By WILLIAM S. NEAL,  
International News Service Staff Correspondent  
WASHINGTON, Jan. 27.—An "air minded congress" is preparing to consider legislation to speed what may be the next great step in aerial transportation—the establishment of trans-oceanic dirigible lines.  
With leading financiers and rich corporations already studying the possibilities of the new mode of transportation overseas, Rep. Clyde Kelly, (R) of Pennsylvania, father of all air legislation enacted by congress, announced hearings would be started on proposals to speed airship development.

## Business Bureau Planning Dinner

Get-Together Of Merchants Of City Planned For Thursday Evening

Arrangements have been completed by officers of the Better Business Bureau of the New Castle Chamber of Commerce for a "get-together" of all merchants of the city on Thursday evening.

This will be in the nature of a dinner to be held at 6:30 p. m. in the Elks Club.

It is the belief of members of the Bureau that the benefits of the Better Business Bureau should not be confined to members of the present members alone, but should be enjoyed by all merchants of the city. President Shenkan and the Board of Directors is asking each member to bring additional guests to this meeting.

Plans for the betterment of merchandising and other beneficial subjects that will stimulate business in New Castle, will be discussed by able speakers.

A fine program has been arranged which will be enjoyed by all who attend.

## AMERICAN GIRL GIVES IMPRESSION OF FLONDON

(Continued From Page One)

men are good looking—more attractive than our American boys. Well, I haven't seen any of them yet.

The Englishmen I have seen start looking saggy from the pants up. But I guess they don't try to look like sheiks.

However, there is one thing that can be said for them. They sure are polite, and they treat you like a lady. Most of our boys treat you with the nonchalance that they would treat their sisters. You know, the American boy has almost entirely forgotten that a girl still believes in romance and wants to be flattered about her looks. When they do start getting romantic most of them are so amateurish you want to giggle at them.

Everyone Is Slow  
As for the English girls: They seem to lack individuality. I have seen a number of pretty English girls, but they were not attractively dressed. In fact, their clothes look as if they were as standardized as the tin Lizzie. Why, when we first arrived here all the newspapers said we dressed like film stars. I wish we could make ourselves believe that.

I think what strikes me most over here is the slowness of things. In the restaurants or hotels they take an age to get your meals for you. Everything seems to move very slowly. Why, if you do move in a hurry everybody stops and stares at you. The other day, for instance, when I rushed up Piccadilly Circus because I was in a hurry to meet a girl friend everybody on the street looked at me as though they thought I had gone mad.

NO HIGHWAY CRASHES  
State Highway patrolmen today stated no automobile accidents have been reported to them during the past 24 hours.

Religion seems to be losing ground? Well, dancing masters lose ground, too, when everybody learns to dance.

the present office or a new building at some other site, for the Christmas season rush would be argument enough. Congress approved a five-year building program in which New Castle was included.

Likewise, The News is in receipt of a number of anonymous letters. The News is glad to receive letters from its readers, but no attention is paid to those that are unsigned.

Coasting on some of the hills about the outskirts of the city is excellent at the present time, youngsters report.

Wednesday is the birthday anniversary of the martyred president, William McKinley, who was shot down by an assassin at Buffalo, N. Y.

Next Sunday is groundhog day. Winter should be approaching the home stretch.

An influx of Westminster college students reached New Castle today to commence their practice teaching in different schools of the city. By special arrangement with local school authorities they come and observe the regular teachers for two weeks, and then teach while the regulars observe for two weeks.

How do your New Year's resolutions stand as we go into the last week of the first month? Or do they? Baby 1930 is growing into boyhood now. You're right, time flies and swiftly so.

Motorists shouldn't fail to apply for their 1930 operator's license card in time. The present one is valid until February 28 but time to renew is here. A re-examination is required of all who fail to renew in time.

of an "air marine" by granting liberal government mail contracts, just as the United States now is building a great ship merchant marine and has developed the airplane mail.

The first proposal considered is expected to be aid in the establishment of an American Zeppelin line from California to Manila, already in prospect by the Goodyear-Zeppelin corporation.

"I feel that airship ocean transportation will become practicable, and congress must prepare for it before the time arrives," said Kelly.

"Undoubtedly the postoffice committee will be holding hearings on bills to have the United States now building a great ship merchant marine and has developed the airplane mail.

published outside the city of New Castle. If newspapers insist upon printing sensational stories and rushing them into this city, such a condition is not produced by this city or county, and if such a thing had any influence upon the minds of our people, then it is just as true that the minds of people in other counties would be influenced.

"I am firmly convinced that Lawrence county citizens will give these defendants a fair, impartial trial. As district attorney it is my purpose to see that justice is done not only in this case but in every other case. My only job is to prosecute for the commonwealth of Pennsylvania and for the county of Lawrence, to see that every defendant is given a fair, impartial trial, and this I am convinced will be had in this case."

Donnie Sees Mother.  
Saturday evening, about 10 o'clock, Irene Schroeder saw her son Donnie for the first time since that night of December 29 when she left him with her father, Joe Crawford, in his Wheeling home. Since that time she had not seen and the only news she had of him was through the medium of newspapers.

While the boy had talked of his mother, he seemed uninterested at times and the reunion between them in the cell Saturday night rather emphasized this fact.

"How are you Donnie," said Irene, clasping him in her arms. "How much do you love me?"

"A hundred bushels," responded the little fellow. Irene then asked him to spell cat, dog and other little words someone had taught him to spell. There was no dramatics, no hysterics, no weeping. Donnie was glad to see his mother, of course, and Irene seemed glad to see him.

After the meeting with his mother, Donnie was taken down stairs to see W. Glenn Dague, who has referred to as "Daddy Dague."

Dague asked the little fellow to spell some little words, held him in his arms and after a few minutes Donnie was taken away.

Meets His Aunts  
His meeting with his aunts, Mrs. Mayne Baum and Mrs. Martha Schoenian of Wheeling, was even more lacking in dramatics than the meeting with his mother.

"I know you," said the little chap. "Who are we," responded the women.

"You're my Aunt Mayne and my Aunt Martha," said Donnie.

They then asked him to come and kiss them and after coaxing with him for some time, he finally walked over and implanted a kiss upon their cheeks, but only after they had asked him several times.

There was no spontaneity about Donnie's kiss, no rushing up to the women and grasping them as one might expect. The cool indifference of the youngster that has characterized him since he was brought to New Castle was present Saturday afternoon and he seemed about as glad to play with Gracie or Jackie Dunlap, his companions for the past few weeks as he was to be fondled by the two women.

"Why did you come to New Castle," was asked them.

"We wanted to see Donnie and Irene," was the reply.

"Isn't it rather odd that you did not come up before to see Donnie, particularly when the authorities were hunting for your sister," was the next question.

"We have business responsibilities," was the answer of Mrs. Baum to this question.

Stand By Sister  
"Irene is our baby sister," said the women, and we expect to stand by her until the end. We will do what we can in her defense and have engaged attorneys to defend her."

The two women then posed for a picture with Donnie, and this picture is shown in other columns of today's News.

The mixup in the engaging of attorneys has finally been straightened out and when he was assured of this, Sheriff Frank N. Johnston immediately admitted Attorney Powell to the jail.

"It is a matter of total indifference to me who defends anyone charged with crime, lodged in this jail," said Sheriff Johnston. "My job is to see that a client is given an opportunity to confer with attorneys, but this will be done only when I am convinced of the genuineness of the attorney's credentials."

"On Saturday and Sunday there seemed to be crossing of wires. Attorney Ben Rosenbloom of Wheeling had a power of attorney for Joe Crawford, father of Irene and Attorney Powell had been engaged by the sisters. Irene is a minor and of course under the legal guardianship of her father. Naturally I was hesitant to admit either of them. The matter has now been straightened out, and Mr. Powell will be admitted at any time he cares to see his client."

Prisoners Indifferent  
Inside the Lawrence County jail, Irene Schroeder and W. Glenn Dague are pursuing their ways, removed from each other by only a few feet, but intervening in that few feet are steel and concrete that put them as far apart from each other as the poles.

Dague, naturally a morose sort of fellow seems even more so. He keeps to himself, seldom talks to other prisoners, does not engage in their card games and does not want to talk. Of Pennsylvania Dutch ancestry he is naturally given more or less to introspection and sits in his cell, perhaps pondering over the kaleidoscopic chain of events that led him across the country into the arms of the law.

Upstairs Irene is as bright and cheerful as she was on the train from Phoenix, Arizona. She laughs easily, is of a cheerful nature and the seriousness of the charges with which she is faced, seems to affect her not at all.

The statement of her attorney that she is not a blonde is true for she is not a genuine blonde. The hair which had been described as "golden blonde" was that color because of some kind of golden hair wash which the woman used, and for which she asked on the train coming back to New Castle.

About an inch from the roots her hair is much darker, more of a toska shade, and unless more of the golden liquid, whatever it is, is used, in a month or so her hair will be its natural color.

Just when the arraignment and preliminary hearing will be held is not known.

Because of the interest in the case, it is likely that the date will not be announced and the arraignment held as secretly as possible.

Following the preliminary hearing at which Irene and Glenn will plead "not guilty" preparation for the trial will go on. If a motion for a change of venue is made, District Attorney Powers will combat it.

In order to care for the number of cases which are coming up in March, 300 jurors have been empaneled, and in this number is included a third week's panel, one more than the usual number.

Pete Presnar was arrested early Saturday evening at Long avenue and Scioto street by Officer Budd Fleeger, when he drove his automobile into a street car. His condition was such that he was taken to the police station, where the police say, that it was found that he was under the influence of liquor.

He was allowed out on bail over Sunday and on his appearance this morning before Mayor William H. Gillespie, he was turned over to Alderman Walter T. Hamilton, where a charge of operating a motor vehicle while under the influence of liquor was made against him by Chief of Police C. C. Horner. He gave bail in the sum of \$500 for his appearance at a hearing scheduled for this afternoon.

## Canadian Champion Defends Title in N. Y.

Miss Eva Dawes, holder of the Ontario high jump championship, will come to New York next month to match her title against that of her American cousin in the Melrose games, starting February 8th. Miss Dawes is one of but two Canadian woman athletes who have been invited to the games.

Scarcely a day passes without a discovery of some interest. We have already greatly augmented what was previously known about this site. Meydum is certainly one of the most important sites in Egypt and we are convinced that a thorough exploration of the great pyramid and the surrounding land will produce discoveries of great interest and significance.

Earlier in the day, Withers and Miss Young flew to Yuma, Ariz. to be married and returned here immediately after the ceremony.

Secretary of State Stimson had a long conference with Premier MacDonald late yesterday at Chequers. There they discussed the question fully, it is believed.

Later Ambassador Morrow and Senators Reed and Robinson had a similar conference with Premier Tardieu of France.

All appearances indicate that this controversy will eventually yield to a compromise based either on the Boncour or Jones proposals under which a certain degree of elasticity permits each power to transfer its strength from one category to another below the battleship class.

The Americans are hopeful that the controversial proposals will reach a stage of settlement sufficient to permit the holding of the second plenary session of the conference either Wednesday or Thursday. They fear the effect the continued inability of the "Big Five" to agree upon the agenda will have upon public opinion.

**DRY CLEANING**

Lengthens and Preserves the Life of Any Garment

WHY this is true—

The newest and latest type of Solvent Purification system, recently installed in our new plant produces a crystal clear solvent, free from oil and other impurities. Through the use of this most scientific method of cleaning the life of even your most delicate garments is preserved.

In addition, all garments are deodorized by air, instead of by heat. The heat has a tendency to make the fabric brittle, while the air system retains the original strength of the fabric.

**Man Slashes Woman During Argument**

Cutting Affair Occurs Following An Argument In Cochran Way Home

Saturday evening at the home of Henrietta Marshall, 112½ Cochran Way, John Miller, colored, according to the police, attacked Sarah Green, colored, who resides at that place, with a razor, when he became enraged during an argument.

He aimed for her throat, but she was able to fend off the blow with her right arm. The razor caused a deep wound in the arm and also in the chest of Mrs. Green, who was removed to the New Castle hospital upon the arrival of Detective Logan and Officer Lockard. It took quite a number of stitches to close the wound.

Miller made his escape at the time but was apprehended Sunday. He is being held in the city jail pending the outcome of the injuries of Mrs. Green.

**Mrs. McKibben's Mother Injured**

# College Heiress Stolen

Telephoned photo of Miss Susan Albright, of Buffalo, Smith College junior, who was kidnapped from the vicinity of the College, at Northampton, Mass., and held prisoner for three hours, before she persuaded her captors to release her. The girl's identity was confirmed by William Allen Neilson, president of the college. (International Newsreel)

# FAREWELL PARTY FOR LOCAL COULE

Mr. and Mrs. Clarence C. Schell, of Beckford street, were guests of honor at a farewell party given Saturday evening by a number of friends and business associates, at the home of Mr. and Mrs. Robert Irvin Hensley, Delaware avenue.

Mr. and Mrs. Schell will leave sometime this week, to make their future home in Sharon, where Mr. Schell has been transferred by the Prudential Insurance company.

The friends and acquaintances of the couple regret their leaving this city and they wish them success for the future.

# H. B. CLUB HAS ENJOYABLE TIME

The H. B. club members were delightfully entertained in the home of Mr. and Mrs. Jess Forrest on the Youngstown road Saturday evening. The chief pastime was 500, honors going to Mrs. Harvey Pitzer and Mrs. William Vaughn. At a chosen hour delicious refreshments were served by the hostess, assisted by Mrs. William Vaughn and Mrs. Frank Snyder. In two weeks Mr. and Mrs. William Vaughn of Gibson street will be hostess.

**Heidish-McKissick.**  
Mr. and Mrs. Charles Heidish of South Ray street, announce the marriage of their daughter Marjorie Jane to Wallace McKissick son of Mrs. K. McKissick of John street.

The ceremony took place Saturday morning at 11 o'clock in the Second United Presbyterian church at Mercer, Pa., with Rev. H. L. Mason officiating with the ring ceremony.

The bride was unattended and was charming in a gown of brown crepe with accessories to match. Supplementing the ceremony a prettily appointed wedding dinner was served in the home of the bride's parents with covers laid for the immediate family.

For the present Mr. and Mrs. McKissick will reside on John street.

**Celebrates Birthday.**

# Gayman Enthuses Over Convention Of School Leaders

Estimates Attendance Of Members Of State Association At Meeting Here As 4,500

H. E. Gayman, director of research of the Pennsylvania State Education association, is still enthusiastic over the great convention which was staged here during the latter part of December.

He estimates the attendance of various members of the association at the recent meeting in New Castle at about 4,500.

An excerpt from a letter recently received by Supt. of Schools C. C. Green from Mr. Gayman follows:

Dr. C. C. Green,  
Superintendent of Schools,  
New Castle, Pennsylvania.  
My Dear Mr. Green:

Dr. Kelley has requested that I reply to your letter of January 15.

Coming on the train we discussed the probable number of different school people in attendance at the New Castle convention and we estimated it at 4,500. Our feeling was that it was probably the largest convention from the point of view of attendance that has been held to date.

The total Pennsylvania State Education association membership at the time of the convention was 58,919.

May I assure you that everyone was most enthusiastic about the facilities of New Castle as a place for the convention.

Very truly yours,  
H. E. GAYMAN,  
Director of Research.

Unable to avoid her, Mr. Biddle's machine struck and knocked her down. Mr. Biddle picked her up and took her to the Jameson Memorial hospital, where it was found that her injuries were not of a serious nature. He then took her to her home.

Nick Lattavo, 1209 Croton avenue, reported Sunday that he had his machine parked on East Washington street and had his door open to get out, when street car No. 347 struck the door, breaking it off.

Earl E. Keefe of 1407 Carlisle street, reported that he was enroute north on Highland avenue, about twenty-five feet north of Grant street when he backed his machine and it struck a car going in the same direction on the rear of his machine. Some damage was done.

**Selecting Jury To Try Pantello On Murder Charge**  
Eight Jurors Selected This Morning By Mercer County Court In Murder Trial

MERCER, Jan. 27.—Eight jurors had been chosen at noon today in the case of the Commonwealth vs. Frank Pantello, who is charged with the murder of Bruno Cangini, his landlord at No. 5 Mine just inside Mercer county line on New Year's eve.

Pantello, it is claimed, stabbed Cangini during an argument over board bill. A verdict of first degree murder will be sought by the commonwealth.

J. A. Stranahan, Jr., is defending Pantello, having been appointed to this task by Judge McLaughry, when Pantello was unable to raise funds to employ an attorney.

It is expected that the work of taking testimony will be started this afternoon.

### THE VICTIMS LISTEN

PROBABLY more significant than the London limitation of arms conference is in itself the manner in which it is being conducted. It is a conference to rid the world of large navies, not to abolish war, but there is something about the conduct of the conference that augurs well for the eventual perpetuation of peace.

Before the war always and since the war too frequently diplomats conferred behind closed doors and treaties were secretly made. The dastardly plots of war always have been schemed clandestinely. Behind locked doors in the closely guarded council rooms of the so-called great, the real motives and purposes of the instigators of war found expression. And they were not the high motives and patriotic purposes preached to the men sent forth to die.

Nothing else happening in the world in this tremendously portentous age so clearly indicates the approach of a time when there shall be no more war than the making of this open covenant, openly arrived at.

Newspapers throughout the world are publishing the procedure step by step. Millions are following the conference word by word with the aid of the radio. The words, the voices, the very intonations of the men who are entrusted with the job of lessening the possibilities of war, are being carried across seas and continents, broadcast to the homes of the common people, the masses who make up the nations and who provide the sinews of war. If anything is "pulled over" on the people in this conference it will have to be done "in committee."

### THE NEGLECTED RADICAL

These are sorry times for the red, red radical. Gone are the gloriously turbulent days of martyrdom, violence, suppression, oppression, head-cracking, imprisonment and merciless persecution. It is not any wonder that to him all seems dark and hopeless.

Whereas a few years ago it was almost impossible for a revolutionary to keep out of jail, it now seems impossible for him to crash the gates of the bastille. And when he does, and such instances are exceedingly rare, release comes before his martyrdom gets into the newspapers.

The czars failed to find the cure for radicalism and were overthrown. The United States early found an effective exterminator and overthrew radicalism.

Nothing so destroys the peace of mind of the political and social innovator as tolerance and indifference. He and his cause thrive on persecution. Every arrest or police raid makes converts and stimulates contributions to the cause. These movements exert a peculiar attraction for that type of citizen who enjoys a good fight. Given police protection instead of police opposition he speedily reverts to orthodoxy.

It will be remembered that the A. Mitchell Palmer red-hunts during the second Wilson administration made radicals faster than his agents could imprison, and deport them. All the constituted authorities need to do to revive communism, socialism and kindred isms in the United States is to stage another "inquisition."

### ABUSE OF THE RADIO

Senator Dill's bill prohibiting indecent language and profanity over the radio is another of those taboos which abuse of a great privilege appears to justify. That such a law should be necessary is not a compliment to the country, if we look at it in one light. And yet in another light, it may be construed as such. It means that there is a reason for it; that some have been abusing a great privilege of free speech; that the majority of radio listeners resent such abuses, that it is abhorrent to them, and that they do not propose to sit idly by and have such indecency and vulgarity thrust into their home—no, not even by means of the radio.

In some respects, the radio listener is helpless. True he or she can turn off the radio—after the offense has been committed. Vulgarity is not justifiable in any respect. Profanity is abhorrent, even granting that there are times when a man may lose control of himself. But no such provocation to lose self-control assails the announcer or the speaker over the radio. He may spread his offense in the open air, but the people of this country do not intend to have it thrust upon them in the sanctity of their homes, penetration of which is permitted to the announcer and the speaker over the radio.

It is a matter of regret that such a bill as proposed by Senator Dill becomes a necessity. Such a bill infringes no one's personal liberty, for even the wildest stretch of imagination can not construe personal liberty to license one to throw physical filth into the homes of the people. There may be some question as to what constitutes indecency in speech, but observance of the ordinary rules of decency will remove all questions on this score, and would make such a law, even if enacted, one not necessary to be applied.—The Charleston W. Va., Daily Mail.

### MORE RHYME THAN REASON

Science has been digging around to ascertain how much truth, if any, there is in the old adage "Early to bed and early to rise makes a man healthy, wealthy and wise," and has come to the conclusion that there is in it more rhyme than reason.

Actual experiments convinced scientists that the first few hours of the day are not productive in mental work and that muscular efforts are apt to be more clumsy in the early morning than later in the day. They found men and women who can work and think faster and better late at night than early in the morning.

Like most adages, this old saying reflects the conditions and opinions of the time of its creation. Its author lived in the day when man lighted his nocturnal way with candles and, because of this scarcity and high cost, found it necessary to teach and practice economy in their use. Then, more than now, frugality was synonymous with wisdom.

No doubt the old adage was also designed to promote the other virtues. Early to bed precluded all patronage of what passed for the night clubs of that day and meant no buggy riding with the reins wrapped around the whip. Virtue is admirable and desirable, but practicing it for its own reward was probably no more widespread then than today. Therefore the hope of health, wealth and wisdom had to be used as a decoy to win society to the virtuous habit of retiring and rising early.

Poultry and peasants still follow the ancient rule, but philosophers never have and, due to the radio, the theater and movies, books and other reasons for keeping late hours, few urbanites now do.

In a war between the sexes the aroma of fried chicken drifting across No-Man's-Land will prove disastrous to the males.

The sporting set in England has taken to knitting. "You really must come up to my lodge for a week-end tating, eh, what?"

A Chicago editor has informed a reader that it is unlawful to fix up a shooting range in the basement of his home. This may explain why Chicagoans air their quarrels in public.

Here The Unusual Happens.  
Hand High, He Obeyed.  
Everybody Happy, Almost.  
Russia Cuts Prices.

By ARTHUR G. BRISBANE  
(Copyright, 1930, King Features  
Syn., Inc.)

LOS ANGELES, Cal., Jan. 27.—On this sunshiny Pacific coast nothing is dull, many things are unusual.

Divorce cases are interesting, provocation extreme, and nearly always on the side of the husband.

One lady, Mrs. Elmer Nelson, whose husband works in a bakery, paid no attention, at first, when he talked in his sleep about "Sweet Cookie". She thought he was dreaming about business. But when he coupled the word "mamma" with "sweet cookie" she became suspicious and asked a divorce.

Another married lady objected to her husband's use and abuse of the radio. She told the judge, "he turns it on as loud as he can, and then beats me, and the radio keeps the neighbors from hearing me yell."

She got her divorce.

We are learning to take orders, justifying Northcliffe's statement "The Americans are a docile people."

A proud native son walked from his bungalow bedroom to his sitting room. Hearing a deep voice say "Raise your arms high above your head," he obeyed instantly, standing with his face to the wall. The voice went on, "Now take a deep breath and count five."

Then he knew it was the "daily dozen" and took his arms down.

The national business survey conference of the United States Chamber of Commerce tells President Hoover business has returned to near normal—nothing to worry about, no need for unusual stimulation.

Several million Americans, out of work, would enjoy a little stimulation if it got them a job. It is, however, a comfort to know that general business, on which all jobs depend, is doing well and that members of national commissions feel optimistic and comfortable.

News to worry grain merchants in Europe and interest American farmers.

Russia's Soviet steamer, Proletariat, arrives in the Baltic with 2,500 tons of grain offered by the "Soviet trade delegation" at prices 25 to 35 cents a bushel below world market prices.

Communist Russia promises heavy exports of rye, oats, barley, fodder, and will if necessary cut prices ruthlessly.

Russia's government really interests itself in farmers, buying tractors for them by the thousands, experimenting intelligently with wholesale farming, destined to solve the farm production problem as wholesale manufacturing has solved automobile production.

G. E. Marchand, head of the National University society, tells Pasadena ladies, "Woman is changing mentally as educational methods change."

The "beautiful-but-dumb" type is rapidly vanishing, says the learned one. The ladies are just as beautiful, but no longer dumb.

They never were dumb as a matter of fact, from Eve onward. Many women, understanding foolish man, have pretended to be less intelligent than they were. Man wishes to feel superior mentally, and to bring that about, it is usually necessary for the woman to conceal much of her intelligence.

Charles Blake, a miner 50 years old, tired of life and prospecting with poor prospects, put a stick of dynamite on his head, lighted the fuse and waited.

Will power was necessary to stand while the fuse burned.

The man stood, the explosion blew his skull to atoms and shook buildings for several blocks.

Airplane travel rates drop rapidly. You fly from Los Angeles to San Francisco, 400 air miles, returning in a Southern Pacific sleeper, for \$38 a round trip.

The T. A. A.-Maddux All Line reports loads 90 to 95 per cent capacity. Eighteen planes added to the service to provide for increased business.

United States authorities at San Diego are shocked to learn that the "irrigation committee" of the American Legion was organized at the state convention last year, to "irrigate" delegates with liquid refreshments that would not make them blind or send them home in pine boxes.

Raiders seized \$27,000 worth of liquor guaranteed not to destroy the kidneys in less than two years.

The San Diego Legion denies official existence of any irrigation committee.

### THE BIG MEN OF 1940—

Will be those who were willing to bet on themselves.

Are certain to be those who took pains to do better work.

Are the ones who are making themselves too big for their jobs in 1930.

May be those who are attracting the least attention now.

Are the ones who will be doing the things considered impossible today.

Will be those who never asked others to do for them what they could do for themselves.

Are certain to be those who keep a sublime faith in humanity.

## Hints and Dints

Sun sets tonight 5:11. Sun rises tomorrow 7:15.

When a New York brownie parks his lighted pipe in his hip pocket, certain portions of his wearing apparel flared up like signals from a ship in distress. In his excitement he turned in a fire alarm and when the department arrived they "put him out." We would recommend asbestos pants for that lad.

There are some things in this world that appeal to some people. Even the life of a bandit has its lure; but the reward will prove to be about the same as in store for the depositors in that newest of banks, now being established by Kingfish, Amos and Andy.

Girls superior to the flapper type are few, but quite numerous enough to supply the men superior enough to prefer that kind.

Fable: "Once a man stopped to help small boys and didn't insist on batting all the time."

Small Child: "Mumme, why do the trees keep their clothes on through the warm days and take them off when the winter comes?"

It is said that many wild rabbits make their homes within the limits of Latrobe. The Boy Scouts have been granted the privilege of capturing these bunnies and returning them to the woods and fields outside the city. We would say that these rabbits will return if taken to country, as they know where they can find the best eats.

"Did you tell her when you proposed that you were unworthy of her?" That always makes a good impression?

"I was going to, but she told me first."

It's only at tea-time mother says "pour Papa."

While this configuration prevails there will be a great many red lights crunched by auto drivers, especially those who are under the stimulus of too much back seat driving.

All signs point to a great year for grape growers. This will be more people eating grape pie.

Today's Storyette  
A colonel who had been promoted to general gave a banquet to his regiment.

Addressing himself to the soldiers, he said: "Fall upon the food without pity—treat it as if it were the enemy."

At the end of the banquet he observed a sergeant hiding two bottles of wine.

"What are you doing?" asked the colonel.

"Obeying orders, sir. In war, when you don't kill the enemy you take them prisoner."

### Senate's Reduced Sugar Tariff Meets With General Approval

Defeat Of Higher Tariff Rate And Of Bounty Gains Much Support, Though Some Urge Needs Of Industry

Few tears were shed over the defeat of the sugar tariff measure in the Senate. While some warnings are sounded against smothering an infant industry, the majority feel that the move was sound economics.

"The margin by which the Harrison amendment providing against any increase in duties on raw sugar was carried in the Senate," according to the NEW YORK SUN, "leaves the sugar raiders little hope of anything to be gained by means of conference. Instead of the expected seven Democratic votes for increase from the present duties to 2.20 and 2.75 cents a pound, there were only four. Instead of the expected dozen Republican votes for the Harrison amendment, there were eighteen. The House bill, providing duties of 2.40 cents on Cuban sugar and 3 cents on sugar from other countries, will be unacceptable to conferees chosen by a Senate that voted 48 to 38 for the existing duties of 1.76 cents on Cuban sugar and 2.20 cents on world sugar. The answer of the Senate is so firm a negative that it ought to be accepted as final by those who have made the unavailing raid against the consumers of sugar."

Recognizing in the Senate's action "a notable victory for sound economics and for consumers' rights," the ATLANTA JOURNAL calls it "the most emphatic and the most meaningful repulse that special privilege has met with in the present session of Congress," and looks upon the proposed taxation as "more unjust than that which stirred the founders of the nation to revolt against a stupid British king."

Observing that "Senator Smoot announces that he will endeavor to get a small advance in rates for the sugar growers before the tariff bill is finally enacted into law," the MEMPHIS COMMERCIAL APPEAL remarks that "this is interesting in its revelation of the fact that the tariff advocates are not as autocratic as they once were." The PROVIDENCE JOURNAL points out that "however much tariff protection they might be granted or however large a bounty exclusively for sugar production," the people doubtless would have to rely chiefly upon foreign growers for their supply. "The KANSAS CITY STAR asserts that 'the country cannot afford to pay heavily for developing an industry with such scant possibilities as that of sugar production.'"

The original House duties, as viewed by the RICHMOND NEWS LEADER, "would have added \$150,000,000 yearly to the country's sugar bill, whereas the gain to the producers would have been only \$26,000,000, and that would have gone exclusively to the 3 per cent cut in the farmers who grow sugar. The present tariff yields \$43,000,000 to the growers, but costs the farming population of the country \$64,000,000—a net loss of \$21,000,000 a year."

On the subject of bounty, the DETROIT NEWS comments: "It worked in the early 20's, when paying bounties to the cane-sugar people of Louisiana and to a few sugar-beet producers. With beet sugar being made on a much larger scale, the government overhead with a bounty plan today would be a large item. The danger of frauds also would be widespread and grave."

In defense of sugar demands the BUTTE MONTANA STANDARD says: "The Senate might have done worse. Perhaps many of its members realize that. Still, there will be disappointment that some workable scheme could not have been evolved which would encourage American farmers to raise more sugar. Taken by and large there is probably no land in the world better suited to the production of beet sugar than certain vast areas of the United States, including large districts of Montana. And yet the United States raises only about one-fifth of the sugar it consumed."

Predicting that if the Senate action stands, "the beet-sugar business will be destroyed," the DETROIT FREE PRESS declares that "if the Cuban sugar interests run true to form, the amount of money they extend to a victimized people will be just about what a Chicago gangster extends to his prey. The American consumer will long for the day when a protective tariff which made possible a competitive industry kept the price within some sort of bounds."

The GRAND RAPIDS PRESS calls the sugar bounty "the only rate in the tariff which might be described as a price-restraining, anti-monopoly duty instead of a price-boosting and monopolistic one." The BAY CITY TIMES hold that "the history of the bounty experiments tends to prove that it not only was an aid to the domestic sugar grower, but that it was a big factor in starting the beet-sugar industry on a sound basis in its infancy."

"Louisiana is just coming back in the raising of sugar" argues the NEW ORLEANS ITEM. "The business is not very profitable here, and the business in the beet-sugar section of the country is not very prosperous. A slight additional increase in the sugar tariff, and the protection of the industry in the United States from both Cuban preferential competition and from the competition of the Philippine Islands, should result in the raising of the domestic sugar scale in our country and in the tropical countries of the world. The old question comes up, 'why raise sugar in the United States?' There are several sound reasons for it. The first is that sugar is a war necessity. America found this out during her last war when we first starved for sugar

and next saw sugar go to fantastic prices."

"The conference committee," in the opinion of the CHICAGO DAILY NEWS, "will have to do what it can to settle the differences between the Senate's proposal to leave the present sugar duties and the action of the lower house increasing the duty on Cuban sugar to 2.40 cents a pound. It may succeed or it may not. There are observers who still think no new tariff measure will be enacted this year."

"The result is another demonstration," concludes the LOUISVILLE COURIER-JOURNAL, "that the Guard high tariff Grundyites, who started out to ride roughshod over the President's recommendation of limited tariff revision, have been unhorsed." The belief that this defeat is a setback for the high protectionists in general is voiced by the SANTA BARBARA DAILY NEWS, the NEW BEDFORD EVENING STANDARD and the BROOKLYN DAILY EAGLE.

"The next step," states the FORT WORTH RECORD-TELEGRAM "will be that of reconciling the two actions by Senate and House. The House, on the face of existing conditions, will have to come to the Senate rate, for the lines appear fixedly drawn in the latter instance."

### The World AND THE Mud Puddles

NO NEW LAW.  
What Walter Woods writes is not so well known as what Edgar A. Guest writes. Nevertheless, Old Guest writes well. This is a sample:

As you read your daily paper and with satisfaction scanned The gigantic sums of money for expansions that are planned, Did it occur to you—as it did to me— Just a friendly little meeting did this for industry.

Just a friendly little meeting, where wisdom and perception Sought to banish unemployment, hardship and dejection. No embossed orations; no talk of legislation; Just a friendly little meeting of the leaders of the nation.

When it comes to spending money, trusted to you as your own, There is always apprehension if the outcome be unknown. Yet a dozen mighty projects were promised without fuss; At a friendly little meeting to a man well known to us.

Just a friendly little meeting—what a pity there's not more. Where hearty co-operation and construction, hold the floor. Where businesslike decisiveness could seek to find a way. To settle the many problems, without so much delay.

The United States Senate might take notice.

## Exceptions Filed To Distribution

Actions Of Clyde Gibson Questioned In Sale Of Property By Sheriff

Exceptions to the sheriff's schedule of distribution were filed at court this morning in the case of the Lawrence Savings and Trust Company, administrator in the estate of John W. Keast against Clyde Gibson, with notice to Costa Conti, terre tenant.

Costa Conti, who purchased the property at sheriff's sale recently when it was sold by the above named plaintiff, asks for an issue of fact to determine the persons entitled to the proceeds. Mrs. Conti paid \$2,100 at the sheriff's sale for the property, subject to lien of a mortgage Minnie and Jessie A. Harper to the State Capitol Savings and Loan Association. Execution was issued on a mortgage given by Gibson on which \$663.25 was due. After the payment of this for the Keast account there remained \$1,436.75, which amount the sheriff proposed to pay to attorneys for Anna L. Metz. It is claimed that on account of irregularities on the part of the validity of the Metz claim and a trial by jury is asked to determine what should be done with the balance in the hands of the sheriff. Costa Conti claims that title had originally been taken to the property by Gibson in trust for her.

## Gas Explosion In Kane Injures Two, Home Is Destroyed

(International News Service)  
KANE, Pa., Jan. 27.—Two persons were injured, one dwelling was shattered, two other buildings were damaged and windows of houses in an entire block were shattered here today in what is believed to have been an explosion of gas in an unoccupied house.

The Rev. A. G. Kirkpatrick, pastor of the Church of God, and Jacob Cox, who lived in the neighborhood were cut and bruised by the force of the explosion which damaged their homes.

All fires in the Reeves house had been turned off when the owner left town and how the blast occurred is the subject of an investigation by police and firemen who were told that two unknown men were seen to enter the house last night.

The rear end of the Reeves house was blown into the air and landed as a unit 75 feet away from its foundation. The other half of the roof was blown over the house next door to land on the roof of a house two doors away.

The Reeves house was a two-story frame and is reduced to wreckage along with most of the furniture in it.

## Women's Committee Urges Court House Improvement

The legislative committee of the Lawrence County Federation of Women's Clubs met Saturday evening, January 25, in the home of the chairman, Mrs. W. A. Taylor.

The national educational bill H. R. 10-8 1586, known as the Robinson-Capper bill, was endorsed and chairman instructed to write our representative asking them to support the measure. Lawrence county women are pioneers in their work for a department of education, with a secretary in the president's cabinet, their efforts dating back to 1919. In the new national educational bill many objectionable features have been removed, federal aid which featured the first bill has been removed, the draft of the bill is to establish a department of education with a secretary in the president's cabinet and not to dictate to the states.

Approval was given of the movement for removal of prohibition enforcement from the treasury department to the department of justice.

Endorsement was given the Jones-Cooper bill, S. 255-H. R. 1195, formerly known as the Sheppard-Towner or maternity-infancy bill. The one year extension of time on this measure expired June 30, 1929. The women of the nation feel that this educational program has not been completed and ask that an adequate appropriation be made to carry on the work. We have at all times 2,500,000 expectant mothers in the nation. Should this educational project go on Are you willing to work that they may have life and have it more abundantly?

Members of the committee are asked to study eugenics bill and hasty marriage bill.

The legislative committee goes on record as favoring enlarging the Lawrence county court house, which is to realize as wholly inadequate for our needs.

JAMESTOWN, N. Y., Jan. 27.—Struck down by an automobile during a driving snow storm, Mrs. Matilda Brown, 60, was instantly killed today. The automobile was operated by Marvin Jackson, Jamestown, according to police.

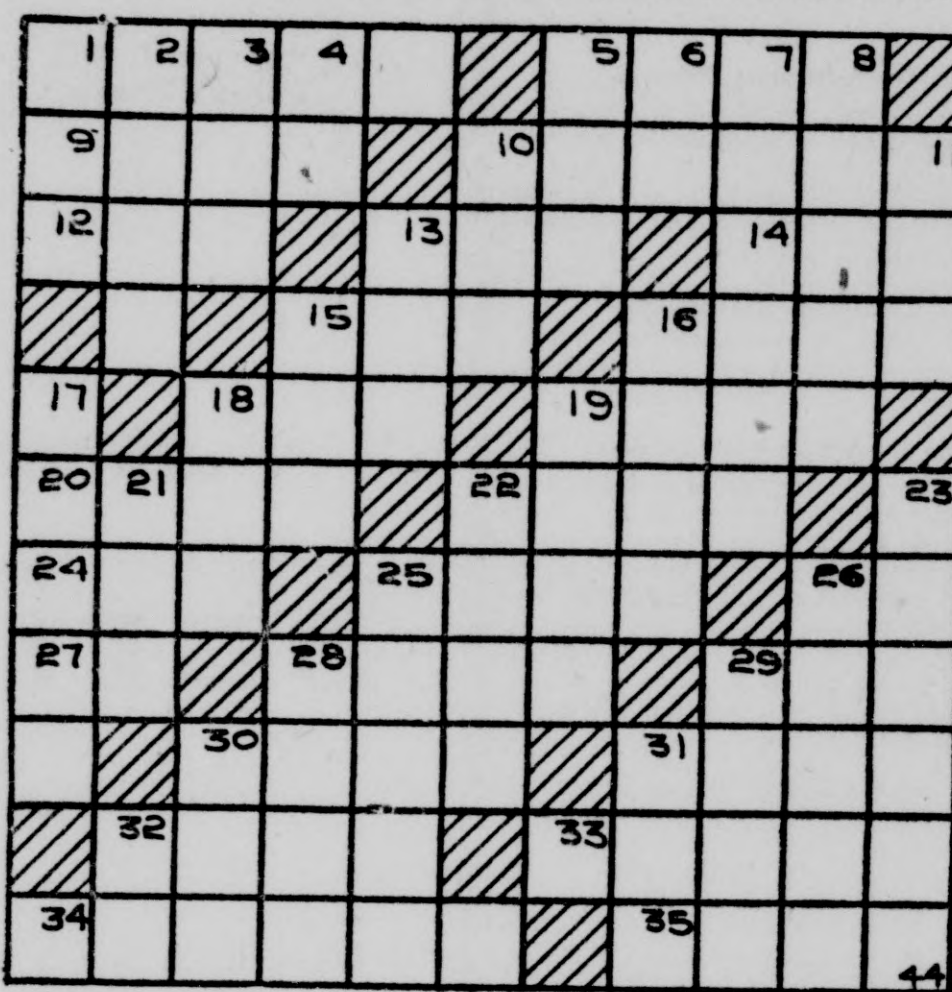

## AFTER OPERATIONS

"I was three times under an operation and I was very weak and nervous and could not eat. I suffered for ten years. I learned about Lydia E. Pinkham's Vegetable Compound and my husband bought me a bottle. I felt a little better and he bought me two more. I had the Compound in my home for two years and took it all the time. Now I feel strong and can do anything."—Mrs. A. Michalk, 5443 Mitchell Ave., Detroit, Michigan.

## Peter's Adventures

A FIRST-CLASS ACROBAT

Snap-Beetle shivered and shook and his claws trembled—just as if he were cold, thought Peter. What a shame the poor fellow should be so frightened!

"I'm sorry I startled you, sir," said the boy, aloud. "You've nothing to fear from me. To tell you the truth I was going to help you back on your feet when Biffer told me not to—said you didn't need any help. He was right. You didn't! My, I never met such a spry chap as you are!"

Snap-Beetle puffed out his thin chest and his look of fright turned into a pleased grin. Biffer ran up to his cousin.

"If you couldn't leap so far we'd not tumble you over on your back just to see you do it, Snapper!" shrilled the gay young Gun-Beetle.

"Come now, the joke's on you, but the moment you 'snap out of it' more cleverly than any other beetle in us, so to speak, the joke is on us, so what do you care? Come on, now, cousin, out with the truth. You're not mad at me and the Tumble-Bugs, now are you?"

"I was as mad as hops!" declared Snap-Beetle, chuckling a little. "But I'm not mad now. In fact, I'm laughing at you. Maybe you don't know it, and I never thought of it before, but your teasing is good for what ails me. I'm a lazy chap and like to amble along, doing not much of anything. When you flop me on my back and I have to 'snap out of it' I get the exercise I need to keep me in good condition. I don't use my spring much at any other time and I guess I ought to!"

His "spring." What was Snap-Beetle talking about. To find out all Peter had to do was to listen. Once started, the acrobat of the Beetle tribe was willing to tell all he knew—a habit with most of the little citizens of the meadow, as Peter had found out. It almost seemed as though what the insects lacked in size they made up for in family pride.

## Skater Is Rescued By School Youth

WAYNESBURG, Pa., Jan. 27.—Harold White, Waynesburg High school freshman, proved a hero here when he risked his life by rescuing Calvin Inghram, 8-year-old son of Mr. and Mrs. George Inghram of Waynesburg, from drowning in Ten Mile creek, where the two boys were skating. The Inghram youth had broken through a hole in the ice and was just about to be carried under by the current when he was rescued by White. He crawled on thin ice to reach him.

## OH, THESE WOMEN!

By LEOLA ALLARD

There is a growing tendency among home rant about how he spoiled a fine business career. Horse leathers! Listen to me, Mr. Omaha. Get some of the fine women you know who are doing useful work to go to your wife and ask her help. Tell them to show her where she can carve out a fine career being of some use to the children and women who need help, not by giving her money, but by giving her time and labor. See what happens.

If she doesn't do anything about it, tell her you got Mrs. Jones to ask her, and flatten her out once and for all on this wooing about a ruined career. Never again let her put that over on you.

Women who want to work are never idle. If they aren't washing babies,

## COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

## Needless Pain!

Nowadays, people take Bayer Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Bayer Aspirin tablets are utterly harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but you can always turn to Bayer Aspirin for relief.

Bayer Aspirin is always available, and it always helps. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

## Antiquated Booze Bottle Is Located In Bessemer

New Castle does not have a monopoly on all the honors of ownership of old, obsolete whiskey bottles. Another of these extinct species has been located in Bessemer, and owned by no other than A. J. Eales, burgess of that place.

This is an old square bottle with the raised letters "Booze" on one side. It is thought by Mr. Eales that the liquor which was formerly (not now) in the bottle, was manufactured by a man named "John Booze", and this gave the name "Booze" to liquor or strong drink.

This bottle is quite different from the one owned by a New Castle lady. The local bottle had on it the word

"Union" and the picture of two clasped hands and 13 stars. This bottle was more in the shape of a flask. It was also empty, however.

Now that we have a good explanation of the origin of the word "Booze", it would be interesting to know the origin of other slang words meaning liquor, such as usquebaugh, tanglefoot, potheen or grog.

An old Paisley shawl is also in the possession of Mr. Eales. The genuine Paisley shawl is a rare possession. This one is in good condition, as is the one owned by a local woman. It is indeed a beautiful thing. The colors, although dyed 150 years ago, remain bright and lively.

## State Acquires Big Land Tracts

Close Deal For 132,000 Acres  
Of Forest Land For  
Three Dollars Per  
Acre

HARRISBURG, Pa., Jan. 27.—The largest forest land purchase ever made in the history of Pennsylvania was closed on January 23, by the state forest commission and the state game commission whereby the commonwealth acquired 132,000 acres of forest land at \$3.00 per acre. The cost including title work, surveys and other acquisition expense brings the total to considerable over \$400,000. Joint announcement of the successful termination of the negotiations was made by Secretary Charles E. Dorworth, of the Department of Forests and Waters, who is chairman of the state forest commission, and Ross E. Leffer, president of the state game commission. The newly acquired land will be allocated on the basis of 70-226 acres to the department of forests and waters and 61,910 acres to the state game commission. The land was purchased from the Central Pennsylvania Lumber Company and is located in eleven counties in the state. The area allocated to the department of forests and waters is located in eight different counties.

The negotiations for joint purchase by the state forest commission and the state game commission was considered for more than a year, but final agreement was not reached until a conference was held at which Secretary Dorworth, State Forester Joseph S. Illick and Irvin W. Gleason, Chief of the Bureau of Lands, representing the department of forests and waters; and President Leffer and W. Gard Conklin, chief of the bureau of land and returns, of the state game commission, and R. G. Brownell, president of the Pennsylvania Lumber Company, were present. The 132,000 acres involved are located in Sullivan, Potter, Elk, Cameron, Clearfield, Clinton, Lycoming, Tioga, Wyoming, Bradford and McKean counties. The portion allocated to the department of forests and waters is located in Clinton, Clearfield, Cameron, Elk, Potter, Tioga, Sullivan and Lycoming counties. The Central Pennsylvania Lumber Company, which has been among the largest lumber operators in Pennsylvania, achieved a notable reputation for producing quality timber lands. The purchased completed today is regarded as one particularly advantageous to the commonwealth in the matter of price per acre, and also the quality of land for timber production.

Governor Fisher has followed the negotiations during the past year with the closest personal interest and expressed enthusiastic approval today when informed that the deal had been closed. Members of the state forest commission, following their meeting today, called upon the gov-

## WOMEN'S ATTENTION IS NOW BEING FOCUSED ON THE ACCESSORIES

With the silhouette question settled, accessories are claiming women's attention. Among the most important of these are shoes and hose. Stockings are darker than in warm weather, but lighter than the shoes with which they are worn. Picture shows, left, a smart pair of oxfords with the new low heel and leather combination for daytime wear. Center, a rayon velvet ensemble for formal daytime wear with which is worn a one-strap suede slipper. Right, green satin and gold kid evening slippers which complement a white chiffon gown.

## Charlie Chaplin Will Not Agree To Make "Talkie"

Lon Chaney Has Signed To  
Make "Talkie" But Chaplin  
Is Still Holdout

(International News Service)  
HOLLYWOOD, Cal., Jan. 27.—Although Lon Chaney, one of the noted "holdouts", has at last signed to make talking pictures, Charles Chaplin, famous film comedian, today reiterated that he has no plans of making similar pictures.

"With me it is not a case of not wanting to talk," said Chaplin. "But my medium has been pantomime and I do not want to turn now to an inferior medium of expression."

"Talking pictures, with all the lavishness of their production, still lack artistry. I have yet to see one that impressed me as being artistic."

## Cartoonist Dies After Injuries

Fatally Injured In Auto Collision  
In Cleveland,  
Ohio

(International News Service)  
CLEVELAND, Jan. 28.—Irving S. Knickerbocker, 32, Staff Artist and creator of the "Little Joe" and "Dizzy Dugan" cartoon features for the Newspaper Enterprise Association, is dead today, the victim of a fatal injuries which he received yesterday in an automobile accident.

Knickerbocker, who was popularly known as "Knick", was riding with five others in the automobile owned and driven by James Donahue, Assistant Science Editor of the Newspaper Enterprise Association. The car was struck by another automobile at a street intersection. Knickerbocker suffered a fractured skull and jaw and his left lung was punctured. He died shortly after admittance to a hospital.

## Odd Fellows To Initiate Class

Tuesday night at the regular meeting of the New Castle lodge No. 15, I. O. O. F., there will be a class of candidates receive the third degree and preparations are being made to entertain quite a crowd. Those attending will be guests at a feed provided in the Temple club rooms following the regular meeting of the lodge.

BOSTON, Mass., Jan. 27.—In advising thousands of students who are undergoing mid-year examinations at Boston university to take intervals of rest for the brain while studying, Dr. George B. Emerson, director of athletics, said:

"Concentrate on your study for one hour, then take a walk around the block, if weather permits, or open a window and take a few breaths of fresh air. Allow your brain to relax for at least 15 minutes. Meanwhile, in your mind, go over the main points of your study. Again study for three-quarters of an hour and rest as before. This is the best way to get the maximum from your work."

Dr. Emerson stated that 4 o'clock in the morning was the best time for intensive study.

## Bishop Anderson Has Good Night

(International News Service)  
CHICAGO, Jan. 27.—A bulletin issued from the bedside of The Most Rev. Charles P. Anderson, Presiding Bishop of the Episcopal Church in America, stated the Bishop spent a restful night and was slightly improved today.

Bishop Anderson was stricken with heart disease late Tuesday, and was in critical condition. Dr. Howard Wakefield, his physician, said Bishop Anderson's blood pressure today had risen considerably.

## Holy Name Society Receives Members

St. Joseph's church was the scene of a gathering of men last evening when 110 members of the Holy Name Society attended in a body, along with the rest of the congregation, when the annual reception and rally of the society was held. Twenty new members were received and the pledge was recited in unison, after which Rev. Fr. Weisenberger delivered an appropriate sermon on "The Holy Name as an Inspiration to Christian Manhood."

There were several special musical numbers rendered by the choir and benediction was pronounced.

## Sharon Resident Dies Of Injuries

Was Enroute Home From This  
City, When Accident Takes  
Place

Ellis Reese, aged 62, of Sherman avenue, Sharon, is dead as a result of injuries sustained early Saturday morning, when the car of Frank Lar, of that place, in which he was enroute home from a meeting of Lawrence Encampment in this city, was wrecked in an accident in Sharon. The Lar machine was in a collision with that of H. S. Garster of Marion, O., and Mr. Reese was thrown out of his head, dying later of the injuries sustained. He was widely known in T. O. O. F. Circles of this section, being a member of Shenango Encampment of Sharon. The funeral will be held Thursday at 2 p. m. from the residence in Sharon and will a number from here will attend.

## Child Dies Of Whooping Cough

Richard Bowman Russell, the two year old son of Mr. and Mrs. Sidney J. Bowman of 219 Meyer avenue, was the victim of whooping cough, dying Sunday morning at 7:30 a. m. following a severe attack of the disease. He was born October 3, 1927, at Wheeling, W. Va., and is survived by his parents, three sisters and a brother. He was preceded in death, May 2, 1929, by a brother, Joseph. The body was taken to Tionesta, Pa., where funeral services were held this afternoon and interment made.

## BOOK REFORMER FACES CONTEMPT

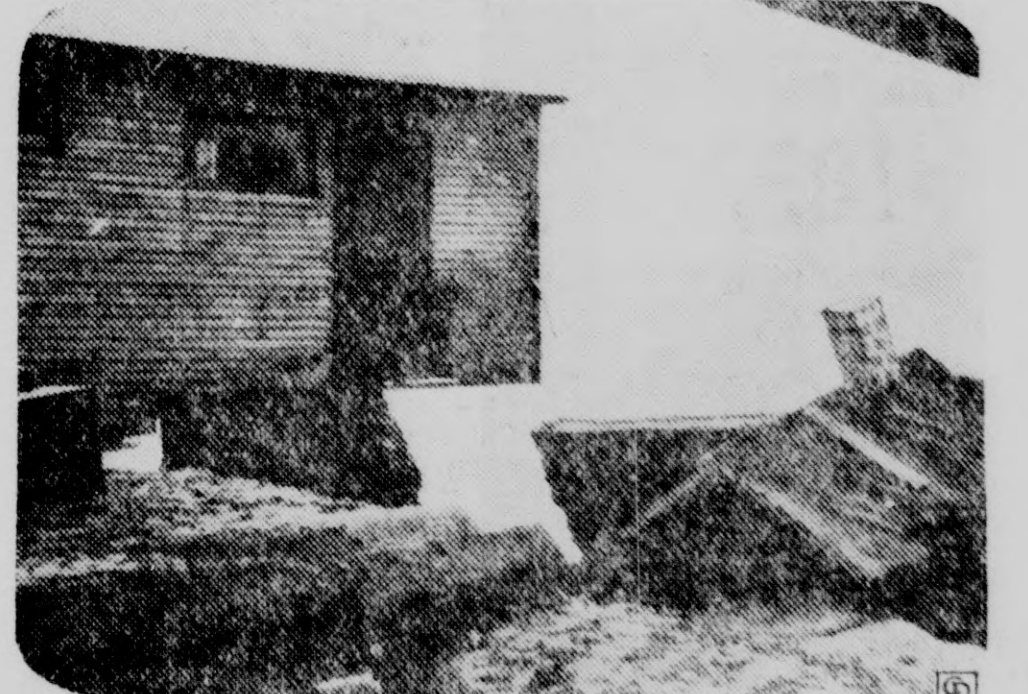

Reforming Chicago hasn't been an easy task for the Rev. Phillip Yarrow of that city. His activities in getting book dealers to secure allegedly obscene books for him brought criticism from a judge and a suit for damages from the book dealer. Now he has been ordered to show cause why he should not be cited for contempt for printing a criticism of the court. Photo shows Joseph Nagle, left, assistant state's attorney, and the minister.

O'Brien, Mrs. Genevieve O'Brien, now on trial, for complicity in the death plot, is struggling to escape the death penalty which has been asked for her. Photo shows Mrs. O'Brien with her lawyers, Charles A. Dougherty, left, and Sam Hoffman, as her trial opened in Chicago.

## WAVES HURL HOUSES INTO OCEAN

An angry sea following recent storms in the Pacific, plus the highest tide of the year, combined to wreak havoc along a section of Long Beach, Cal., where protecting bulkheads were ripped out, homes inundated and cottages tumbled into the sea. ## Oil King Goes for Plane Ride

John D. Rockefeller, casting aside for the moment his ninety long years, steps aboard an airplane at Ormond Beach, Fla., to enjoy his first ride. The fact that the plane did not leave the ground did not seem to affect the oil king's enjoyment in the slightest for, after a merry spin on terra firma, he presented Pilot Noise with a book and the latter's wife with some shiny new dimes.

This photograph of an alleged bar with empty liquor bottles and slot machines has been made public by G. Rowland Munroe, general counsel of the Anti-Saloon League, of New Jersey, who says it is one of those made at the hunting lodge of Colonel Arthur P. Foran, comptroller of cus-

oms in New York. The Foran hunting lodge is at Mount Airy, Hunterdon County, N. J. Harold Nadel, a private investigator, is said to have looked through a window and seen the old-time bar, including bottles, cash register and slot machines.

# Bo-Broadway

by JOSEPH VAN RAALTE

By Central Press  
NEW YORK, Jan. 27.—When the city resounded to the clatter of hoofs and the crunch of wheels, every harnessmaker, worthy of the name, maintained in front of his establishment a wooden horse. Then along came Mr. Ford and his Boy Friends and the harnessmakers and their wooden horses began their slide down the greased chute of Oblivion. Today in Manhattan there are only about a dozen horse haberdashers left; and in the whole length and breadth of the town only two wooden horses—survivors of a vanished race making a last stand against the "shaftless carriage."

**"PLEASE REFRAIN" DAYS AGAIN?**

With the return of the long skirt, are ancient prejudices to be revived? Drake, the white-front restaurateur in 42nd street, has signs sketched to the walls of his Pie Palace reading: "Ladies Will Please Refrain From Smoking."

As one of Mr. Drake's female patrons remarked on seeing the signs—but no, on second thought, we won't repeat it. Some things are better left unsaid.

**FRANK!**

He was tall and cadaverous and although the day was chill, lacked an overcoat. He bumped into a busy broker, murmured an apology and placed a detaining hand on the other's arm.

"I'll only detain you an instant," he said. "You see, I'm taking up a col-

lection for a little drink and I have you down on my list."  
The broker slipped him a dime.  
"A thousand thanks," murmured the panhandler. "Three more subscribers and we'll be over the top."

## CHEAP

The thieves who, in the last month, stole 450 pay phones from the walls of New York apartment houses carting them away, nickels and all, must have felt pretty mean and cheap when they read the Telephone Company's advertisements accompanying the new rate increase, and learned how President McCullough and the rest of the officials have been lying awake nights, undermining their constitutions, plotting, planning, devising new ways of making The Subscribers happy.

A man who would rob the telephone company would betray his own mother.

## MIKE DOESN'T LIKE CRITICS

"Mike Gold, editor of a paper called 'The Masses,' edited in italics, wrote 'play,' recently, which the critics panned. 'unmercifully.' Ordinarily, when this happens the disgruntled author has nothing to do but bow to the inevitable and smother his chagrin.

But not Mike. He has never in his life bowed to the inevitable. Having read all that the critics had to say about him and his play he sat down at his typewriter, rolled up his sleeves, spit on his hands and hurled the following at his tormentors:

"There is a burning need for some one to organize a League to Abolish Dramatic Criticism. They are jaded, corrupt, boulevardiars. They are ignorant, weary men. They hate their jobs. They have no courage. They hate the theater. Noisy bell-wethers

like the fat Alexander Woolcott or the chorus girl George Jean Nathan have always intimidated them. They have little individuality. Read one and you have read all. They are a shallow clique, but the beginning playwright must dun their gauntlets."

I don't know why, but somehow or other I get the impression that Mike is prejudiced.

## PRETTY JAILS

"It is customary to design such public buildings as City Halls, Libraries, Courthouses and jails with a view not only of utility but with some attempt toward beauty, thereby adding to the pleasure and culture of the people."—Water Works Engineering Journal.

## Swick Amends Previous Bill

Measure Affects Pensions For World War Veterans And Others

(Special To The News)

WASHINGTON, D. C., Jan. 27.—Congressman J. Howard Swick has introduced a bill to amend his bill of a week ago that would abolish the necessity for proving service connection for disability in obtaining government compensation, so that World War veterans would be eligible to receive the benefits that are now afforded Spanish-American war veterans.

Under the provisions of the congressman's bill as amended by himself, any World War veteran who is now, or hereafter may become, on account of his age or physical or mental disabilities, helpless or blind, or so nearly helpless or blind as to need or require the regular aid and attendance of another person, would be given the rate of \$72 per month "provided such disabilities are not the result of his own vicious habits."

The present law requires that any disabled veteran applying for government compensation must prove that his disability resulted from the service. Congressman Swick's bill of a week ago would have canceled this necessity, and his bill as amended contains the same provision with the \$72 monthly compensation for any veteran who becomes blind or helpless added.

## Auto Runs Wild, Two Are Injured

SLIPPERY ROCK, Pa., Jan. 27.—A. E. Patterson, 26, of Clairton and Sidney Duncan, 25, of York, were severely injured yesterday, when their automobile left the Slippery Rock-Butler highway and they were thrown through the windshield. Duncan was cut across the nose and forehead, and Patterson received deep lacerations of the head. Neither man is believed seriously hurt, and they are being treated in the Butler Hospital. They were on their way from Flint, Mich. to York. The car plunged through a wire fence and went about 50 yards over a frozen field, before it came to a stop in a small stream.

## Merchant Is Victim Of Auto Accident

TYRONE, Pa., Jan. 27.—Gilbert O. It is supposed Mr. Mitchell fell asleep at the wheel.

## SUSPECTS CLAIM

IRENE IS COUSIN

ZANESVILLE, Ohio, Jan. 27.—Three brothers who were arrested here late last week on charge of robbery are wanted in West Virginia, Pennsylvania and Michigan in addition to Ohio, according to police.

The trio, William Holland, 36, and Albert Holland, 24, both of New Cumberland, W. Va., and Robert Holland, 16, of Bellaire, Ohio, told officers they were cousins of Mrs. Irene Schroeder, held at New Castle in connection with the killing of a highway patrolman.

## BETTER THAN SUNSHINE FOR FRAIL CHILDREN

Just ask your own physician—he will tell you growing boys and girls should have plenty of Vitamins A and D if their bones, teeth, eyes and body are to properly develop—if they're to escape rickets and the evils of malnutrition.

Oftentimes it's inconvenient and weather won't permit children to obtain these precious Vitamins from the sun but Cod Liver Oil never fails—it's full of these valuable energy-creating and health-building Vitamins.

And now, thanks to a learned chemist, delicate boys and girls obtain the same Vitamin benefit from 2 McCoy's Cod Liver Oil Extract Tablets as by taking one teaspoonful of pure liquid Cod Liver Oil and for every ailment, sickness, rundown or underweight condition for which Cod Liver Oil is prescribed, McCoy's is equally as good.

The Vitamins have been extracted by a special process from pure Vitamin tested, Norwegian Cod Liver Oil and put into this sugar coated tablet form and it's these Vitamins which are so important to health—Oil without the Vitamins is worthless.

So why make your children's lives a torment with the obnoxious oil when they are sure to get all the vitamins they need from these pleasant-tasting, sugar-coated tablets. 60 tablets, 60¢ at drugstores everywhere—take your Vitamins straight.

## THE QUESTION BOX

Answers to questions of information and fact can be obtained by writing to Central Press Bureau, P. O. Box 126 Washington, D. C., and enclosing a self-addressed, stamped envelope. No answers will be given to marital, medical or legal questions

Except what its face indicates it is impossible to place a definite value upon any old coin or sample of paper money. It is like any other antique. Even though rare, and in demand by collectors, the price obtainable for the collector depends upon the owner's willingness to sell and upon the anxiety of some prospective purchaser to acquire it. It is true that dealers have a more or less fixed scale of rates, but it goes without saying that they are in business for profit. Consequently to quote from a dealer's list of offers obviously would be to name figures lower than a clever bargainer might secure on his own account, and the possibilities of bargaining are too flexible to justify much guessing. About all it is safe to tell an inquiring collector is that certain coins and samples of paper money are rare enough to bring a premium. The treasury department recognizes U. S. money only as its face and neither accepts nor redeems foreign currency. Specifically: 10 cents in 1849 paper; a 1790 Duke of York halfpenny; an 1847 liberty-head penny; an 1857 flycatcher penny; a 18 penny, an 1857 dime, and half dollars of 1808, 1826 and 1841, respectively, are somewhat scarce and should command small premiums. Of many other coins concerning which the Question Box has received queries, none is likely to find takers at much, if anything, above its face.

What are the Virginia Capes?

Cape Charles and Cape Henry.

Who has charge of prohibition enforcement, Dr. Doran or Seymour Lowman?

Seymour Lowman is assistant secretary of the treasury in charge of customs, the coast guard and prohibition (insofar as its enforcement is a treasury function). Dr. James M. Doran is commissioner at the head of the treasury's bureau of prohibition, which, under Assistant Secretary Lowman's jurisdiction, makes the doctor a subordinate of Mr. Lowman.

Does water contain any color? If so, what color?

Not unless it contains impurities. If pure, the color depends on the nature of the impurities.

Is J. P. Morgan a Jew? Is Morgan and Co. considered a Jewish firm?

J. P. Morgan is practically identified with the Episcopal church, as were his father and still earlier ancestors before him. It follows that the house of Morgan is not considered Jewish.

How and where can I get a trout to make vocal records? How can I get a trial making talking pictures?

## Farmer Murdered In Beaver County

Earl J. Stanich Found In Automobile, Shot Through Head

AMBRIDGE, Pa., Jan. 27.—Beaver county officers were confronted with a murder mystery today when the body of Earl J. Stanich, 41, Harmony township, was found slumped in the seat of his automobile with two bullet wounds in the head.

Stanich lived along the Ambridge-Baden road, near the monument of Anthony Wayne. He had spent the evening at home and left the house about midnight to put his car, which he had left parked on the street, in the garage. When he failed to return at 3 o'clock this morning a son was sent out to look for him and found the body in the car.

Coroner Harry C. McCarter conducted an autopsy. Both bullets had been fired through the left temple and the face was powerfully burned. One of the bullets had gone through the man's head and lodged in his clothing. It was from a .38-calibre revolver, but no trace of the revolver could be found.

The man's wife and children could give state police and county detectives no information concerning a possible motive.

Police believe that some enemy of the man had lain in wait in the automobile for Stanich and had shot him as he sat at the wheel.

## BE FAIR TO THE SPARROWS

The friendless sparrows; against whom there seems to be an overwhelming prejudice are classed as vermin in Pennsylvania and can be killed at any time by any body. It seems to me that those responsible for that law, if intelligent and well informed men, were much like Pilate willing to listen to the clamor of the mob.

I myself once shared this prejudice; when they first came among us in a kind of a Britannia rules the wave manner that was rather hard to stand. Until Henry Sigfried one of the founders of the Youngstown Carnegie works; which is now but a memory, said to me: "Arthur, you can say what you please about sparrows but before they come to Youngstown the bugs and worms are just as deserving of death at every body's hand as the English sparrows.

When the first auto chugged through a neighboring village the village was explained "The sparrows are doomed." We all asked why. No more horse manure," he said. But they survived from coast to coast in reduced numbers—the western ones are lighter in color than their eastern cousins—since then they have improved in their manners and in treatment of other birds. Until they are living by the spring house along with the robins, blackbirds, yellow hammers, wrens, and starlings in comparative peace, and harmony with no more jangling than an average community of humans.

The English sparrows are the most peaceable and reasonable of any in

the bunch. Many times I have observed them fricking the canter worms off the elms along with the wrens and blue birds not only on the same trees but the same branch; with no show of displeasure on their part.

If you don't believe this just watch yourself and you will notice a wonderful change for the better in their habits and disposition. If they could read I would be sure they had been studying our constitution and declaration of independence. And impressed with the truths there in concluding that all birds are endowed with certain inalienable rights among which are the right to life liberty and the pursuit of worms and have become willing to grant the same to others. Please make your boys promise not

to shoot them until they see them eating fruit along with the robin.

## Friend Of Five Presidents Dies

(International News Service)  
BUFFALO, N. Y., Jan. 27.—A friend of five presidents, Ansley Wilcox, who knew Presidents Cleveland, McKinley, Roosevelt, Taft and Wilson, was dead here today.

A native of Augusta, Ga., he graduated from Yale in 1878.

Vice-President Roosevelt was a guest in the Wilcox home here in September, 1901, when a crazed anarchist, Leon Czolgosz, fired two shots at President McKinley, who was holding a reception at the Pan-American Exposition. Later when President McKinley died, the oath of office as president was taken by Wilcox.

He died at the Wilcox home.

## Chrysler Has Formula For Business Success

"Be Enthusiastic About Your Job," Give "Boss" More Than He Expects Of You

Wealthy Automobile Magnate Says Industrial Outlook For 1930 Is Very Good

(EDITOR'S NOTE—This is the first of two articles by James L. Kilgallen, International News Service Staff Correspondent based on an exclusive interview with Walter P. Chrysler, one of America's foremost business men, in which the motor car manufacturer gives his formula for success, predicts a prosperous 1930, and describes his reaction to his latest achievement, the erection of the new Chrysler building in New York City, tallest skyscraper in the world.)

By JAMES L. KILGALLEN  
International News Service Staff Correspondent  
(Copyright 1930 by International News Service)

NEW YORK, Jan. 27.—"Be enthusiastic. Give the boss more than he expects. And have confidence in your superiors."

This is a formula for success for any ambitious man, as expressed today by a self-made multi-millionaire, Walter P. Chrysler, head of the Chrysler Motor Corporation and one of America's industrial giants, in an exclusive interview.

To the "boss" of any business his advice is this:  
"Develop an esprit de corps. Bring out the best that is in your men. When you select men for big executive

jobs, have the courage to delegate responsibility.

"I want my important executives to make decisions themselves, and quickly. I don't want them saying: 'I'll put this up to Chrysler.' The right kind of an executive can take the responsibility. You'll be surprised how some men will deliver for you when put on their own."

**Predicts Good Business**  
Mr. Chrysler, incidentally, predicts that 1930 will be a good business year. All his plans are pointed that way.

He was interviewed in his Madison avenue offices where he was receiving congratulations on his latest achievement—the virtual completion of the new Chrysler building, a seventy-eight story skyscraper, the tallest building in the world. It represents a \$15,000,000 personal investment. It is located in the heart of New York City, near the Grand Central station.

Chrysler said that in his organization there are several young men being trained for big executive positions with a view of giving them worth while jobs when they are capable of filling them.

"This stimulates effort, generates enthusiasm and defines distinct objectives for each man," he said. "It compels each executive to measure up to the standards and requirements of his job."

"In every business there are plenty of men, hidden away in more or less routine jobs, who could accomplish big things if given the opportunity."

**Motor Business Is Good**  
"Success to any corporation or business is inevitable if the directing head can inject an esprit de corps that stimulates enthusiasm and if, of course, the other fundamentals of the business are sound."

Asked to what he attributed the remarkable success of his corporation, he replied:

"Pine management." (Meaning management by his executives whom he delegates heavy responsibility.)

Mr. Chrysler talked enthusiastically about the motor business which engaged practically all of his time. At one point in the interview, while discussing America's outlook for continued prosperity, he exclaimed:

"We do not ride in automobiles because we are prosperous, we are prosperous because we ride in automobiles!"

The automobile, he believes, stimulates business because it enables people to go places and do things.

(EDITOR'S NOTE—In another interview tomorrow, Mr. Chrysler will comment on his reaction to his new tallest building in the world, and will also discuss business conditions.)

ing days of the early American struggle for freedom.

Miss Frazer's will, one of the longest and most unique testaments ever recorded here, covers twenty-seven typewritten pages and names more than 100 persons as legatees. No value has been placed upon the estate which consists almost entirely of the antiques.

The will specifically directs that no person be allowed to enter her room until four cousins named in the document have distributed the bequests in accord with her wishes. The Delaware Historical Society and the Lancaster Historical Society are named as legatees for some of the antiques, consisting largely of contemporary portraits of Revolutionary War characters.

Venango County Judge Checks Up On Ward Alias Weaver And Finds Prison Record

(International News Service)  
FRANKLIN, Pa., Jan. 27.—Bert Ward, alias Elmer Weaver, an escaped convict from Rockview prison, was to be brought back here today for sentence in connection with two Oil City robberies.

Ward, ready to plead guilty to the Oil City robberies, was discovered to have escaped from Rockview last April while he was serving a 5 to 10 year sentence for a previous offense. He had told Judge Parker that he had never been in trouble before, but the judge investigated his record and discovered the escape episode.

## SEVENTH WARD NEWS

### New Instruments Are Received At Mahoning School

Plan To Organize School Band; Other News Notes Of The Seventh Ward

Pupils of Mahoning school were delighted last week when they saw the new musical instruments arrive. Recently the board of education voted for instruments to be purchased for Mahoning school. The order was soon filled and Thursday they received a new cello, E flat tuba, trumpet, and a set of drums. This will add greatly to the instrumentation of the orchestra and it is thought that a band will be soon started.

Boys and girls have been going to Miss Gladys Thomas, who is the instrumental instructor, and begging to be allowed the privilege of using one of the instruments. Pupils must first interview Miss Mitchell, principal of Mahoning school, and with her recommendation they will be allowed to use the instrument. Free class instruction is given to all pupils having musical instruments.

Last term Mahoning school received three instruments, a clarinet, baritone horn and a trombone. These instruments are being used and the school now owns eight instruments.

Miss Thomas is planning for evening practices to be held two evenings of each week of the new semester. A great deal of work is accomplished by these evening practices. It is planned that one evening be given for senior orchestra practice and for the organization of a Junior orchestra. The second evening will be for the organization of a Mahoning school band. There has never been a band at this school.

**IN MEADVILLE**

### Benwood Not To Aid Irene

City Officials Deny Any Plan To Aid—No Sympathy For Woman

BENWOOD, W. Va., Jan. 27.—City officials of Benwood last night denied rumors emanating from New Castle that the city council here had unofficially decided to raise a defense fund in behalf of Irene Schroeder former Benwood woman held as the "trigger blonde" in the killing of Corporal Brady Paul of the Pennsylvania highway patrol.

The New Castle rumor said that the Benwood council had at first contemplated official action to defend the "trigger woman" but had decided to raise an unofficial fund when the city solicitor informed them that such action was illegal. Mayor L. M. Morningstar said that no special, official or unofficial meeting of council had been held to consider any such action and that as far as he knew no action to defend Irene had been proposed to any of the council. Councilmen M. J. Moran and August Jurgen concurred in the mayor's denial.

It was pointed out by the city officials here that whereas there was a great deal of sympathy in this section for Donnie the 4-year-old son of the blonde gunwoman little or no feeling was displayed in behalf of his mother.

Joe Crawford father of Irene will not go to New Castle because he feared being held by authorities there as a witness in the case. Mayor Morningstar said, the blonde's father is still in the Wheeling-Bellaire vicinity according to the mayor.

### More Men Than Women Try Second Marriage

Columbia Co. License Records Show 38 Widowers And 29 Widows Mated

BLOOMSBURG, Pa., Jan. 27.—That Columbia county men are more inclined to attempt a second matrimonial venture than women, the marriage license records for the last 12 months indicate.

During the year 38 widowers secured marriage licenses, as did 29 widows. Nineteen men who had been divorced twice, in four instances both bride and groom had been divorced and in four other cases a divorcee married a widower.

Twenty of the 57 bridegrooms picked brides who had never been married before and nine of the brides selected husbands for whom it was the first matrimonial venture.

In about one of every five licenses issued one or both of the parties had been previously married.

### New Marriage Bill A Puzzle In Britain

M. P.'s Find It Hard To Follow, Yet Favor Passage; Measure Interests All

LONDON, Jan. 27.—It isn't a new form of cross-word puzzle, "ask me another," or a mental maze, but members of the British parliament are still attempting to follow the bill presented by the Rev. James Barr, Labor M. P.

The bill seeks to amend the law relating to marriage with nephew and

niece, and also seek to legalize the marriage of a man with:

His deceased wife's brother's daughter.

His deceased wife's sister's daughter.

His father's deceased brother's widow.

His mother's deceased brother's widow.

His deceased wife's father's sister.

His deceased wife's mother's sister.

His brother's deceased son's widow.

His sister's deceased son's widow.

The bill is said to have the backing of influential members of the Labor, Conservative and Liberal parties and should hold interest for wives, brothers, sisters, widows, fathers and sons.

The Oklahoma man who has had 102 operations should be sent to Congress to sympathize with the tariff bill.—The Fort Worth Star Telegram.

### Large Crowd Attends Revival

The Wesleyan Methodist church was taxed to capacity Sunday evening when Rev. Jesse Whittecotton of Lapell, Indiana delivered an inspiring sermon. He has been conducting meetings the past week and at the close of each service many accessions have been made to the church as the result of his masterful sermons.

Services will be conducted each evening this week with a rousing song service at 7:30.

## Taxi-Cab Strike In Pittsburgh Is Still Unsettled

Organizer Issues Warning To  
Strikers To Try And Set-  
tle Differences

(International News Service)  
PITTSBURGH, Jan. 27.—Pitts-  
burghers today started into the third  
of their "taxi-less" weeks, with driv-  
ers and owners of the Yellow and  
Green cab divisions of the Parmelee  
Transportation companies each ad-  
vancing in their refusal to give into the  
other.

At a meeting last night Charles  
Burger, of Chicago, an international  
organizer for the American Federa-  
tion of Labor warned the strikers  
that unless some move is made to  
bring the strike to a settlement  
through conciliation, he will advise  
the federation to revoke the charter  
just obtained by the local union.

Strikers, however, are determined  
to go ahead until their demands are  
met, judging from the shouts that  
arose from the body at the meeting  
last night. They want 40 per cent of  
fares collected and a recognition of  
the union.

The strike, which has been marked  
by moderate violence when the com-  
pany made efforts to place its cabs  
on the street by using imported driv-  
ers, started two weeks ago yesterday  
when drivers claimed that an an-  
nounced increase in wages turned out  
to be a cut.

Some 1,400 drivers are engaged in  
the strike.

## "Sporting Blood" Proves Good Show

New George M. Cohan Farce-  
Comedy Should Click On  
Broadway

New Castle playgoers were treat-  
ed to an amusing and well put to-  
gether farce-comedy from the pen of  
Lewis B. Ely, Saturday night, at the  
Cathedral. The play has been tag-  
ged "Sporting Blood", and it lives up  
to its name. It is another George M.  
Cohan production. The show is only  
in its infancy, but shows possibilities.  
It involves a literary inclined mid-  
dle-aged man, taken by Walter Con-  
nelly, who finds his efforts to please  
the fastidious publishers quite severe  
through a genuine lack of human  
emotion. Philip Lowe, a publisher,  
taken by Frank Elliott, lends Larned  
the writer, a lot of new ideas and con-  
sequently his fiancée, Ruth Shepley,  
scored a real hit as Olive Nimmo,  
a book critic, she has severely ham-  
pered the efforts of Larned to pro-  
duce something with a "kick".

The play deals with a very delicate  
subject of a woman's honor. Olive  
finds herself in the hotel suite of Ar-  
thur Larned, and is forced through  
various circumstances to spend the  
night in the room. The pleadings of  
her lover and daughter, Elaine Tem-  
ple, as Ernestine fail to persuade the  
woman to leave the hotel and finally  
the house detective forces the issue in-  
to trying conclusions by making them  
register as man and wife. Larned  
learns a lot about love making from  
Olive and promises to write some  
snappy stuff. Olive really makes a  
"sap" out of Larned but she learns  
to love him at the same time, and  
they live happily ever after, one sup-  
poses.

The three-act play has potential  
qualities. It is not exactly a play  
dealing with intellectual things, but  
rather human emotion, and yet there  
is nothing of the vulgar type dis-  
plays along the path to success in  
what Walter Winchell calls The Grandest  
Canyon.

Another part in the show well taken  
is that of Joan Bonnell, who does a  
drunken-flapper type to the "T. T. Sam  
Forrest" is the stage manager of the  
play and follows his other successes  
with something equally as entertain-  
ing.

## Check A Cough When It Starts

A COLD often results in a  
cough and unless that  
trifling cough is attended to  
promptly, it may become deep  
rooted and invite serious trou-

For neglected, stubborn coughs,  
Eckman's Alternative, with its  
easily assimilated calcium con-

## No Beds Available Now For Veterans

According to information received  
by the secretary of the Lawrence  
county chapter, American Red Cross,  
no more beds are available for sick or  
disabled veterans at the present time  
and those who become ill now must  
await their turn to get into an insti-  
tution.

Prompt action has been granted in  
the past for local veterans who were  
in need of institutional care, but the  
request for hospital care has been so  
heavy during the past few weeks that  
beds in the U. S. veterans hospitals in  
the local district are now at a pre-  
mium.

## Tickets Ready For Commander's Banquet

Indications Are That There Will  
Be Several More Than Last  
Year In Attendance

Announcement that the eighth an-  
nual national commander's banquet  
of the 26th congressional district posts  
of the American Legion would be held  
here in the cathedral on March 4 has  
awakened much enthusiasm among  
the former service men and the peo-  
ple of this city and the congressional  
district.

Tickets for the big event have been  
printed and are now in the hands of  
Harry M. Long, the general chairman  
of the banquet, and will be distributed  
at once to committeemen and others  
interested in the coming event.

There has been a limit placed on  
the number of tickets that will be  
sold and when these are sold there  
will be no more opportunities left of  
attending the banquet and hearing  
National Commander Bodenhamer,  
who is credited with being one of the  
finest orators that ever headed the  
Legion.

The affair is open to all those desir-  
ing to attend and it is urged that  
those planning to attend get their  
tickets early so that there will be no  
last minute disappointment, such as  
occurred last year.

Arrangements made for the big  
event include the banquet, a program  
of entertainment and dancing. The  
tickets are being sold at \$1.50, design-  
ed to merely cover the actual expense  
of the affair, if it does that. There  
is no desire for a profit.

## 453 Below Zero Mark Sought By Scientists

WASHINGTON, Jan. 27.—It has  
been cold, but imagine 453 degrees  
below zero. The Bureau of Stand-  
ards expects to create this tempera-  
ture and possibly a lower one.

Dr. F. G. Brickwedde, director of  
the low temperature laboratory, an-  
nouncing Saturday the setting up of  
apparatus for the work, said the ex-  
periment would be made to study the  
nature of matter under extremely  
low temperatures. Some effects have  
been observed in this field which  
baffle science, he explained, and it is  
to unravel them that the work is to  
be done.

Wright corporation and retiring head  
of Transcontinental Air Transport,  
will be succeeded by J. L. Maddux,  
head of former Maddux Air Lines.

ness. No struggling for breath at  
night; your cold or catarrh disap-  
pears.

Get a small bottle of Ely's Cream  
Balm from your druggist now. Apply  
a little of this fragrant, antiseptic,  
healing cream in your nostrils. It  
penetrates through every air passage  
of the head, soothes the inflamed or  
swollen mucous membrane and relief  
comes instantly.

It's just fine. Don't stay stuffed-

Ten Herbs, the famous new medicine  
for ailments of the stomach, liver,  
kidneys and bowels, and for rheuma-  
tism, neuritis, nervousness, and gen-  
eral debility. Its ten wonderful nat-  
ural ingredients not only go to the

source of such health troubles, but  
also cleanse and invigorate the whole  
human system, bringing new feelings  
of health and strength over the body  
in general. Learn what Ten Herbs  
has done for suffering men and wom-  
en of this city and vicinity by calling  
at Eckerd's of New Castle, Inc., 30  
East Washington Street, this city.

"Ten Herbs ended my stomach  
trouble, from which I had sought re-  
lief for two years," said Mr. W. L.  
Snyder, 251 South McKean Street,  
Butler, Pa. "Before taking your  
medicine some time ago, my appetite  
was poor, and I was troubled with gas,  
bloating and heartburn. Nervousness  
kept me from sleeping well, and I  
would feel very tired on arising in the  
morning. Sometimes I got so dizzy  
I could not see for a minute or two,  
and I would have pains over my eyes,  
which would water and have tiny  
spots before them. Lumbago troubled  
me, and there were severe pains in the  
back of my neck. I think it was nu-  
ritious, that caused me the trouble. I  
had in my hands at times. I was  
also bothered with bronchitis, which  
seemed to weaken me to a consider-  
able extent."

"Ten Herbs did wonders for me—  
really made me feel like a new man.  
Your medicine put my stomach in  
fine condition. I found I could eat  
anything without having distress  
afterwards. I was free of gas, bloat-  
ing and heartburn. Nervousness hav-  
ing been relieved, I could sleep sound-  
ly, and I felt rested when I arose in  
the morning. Dizzy spells and the  
pains across my eyes disappeared. Lu-  
mbago was entirely relieved, and the  
pains left my back. My eyes no  
longer troubled me, and my sight be-  
came clear. My hands did not get  
numb any more. I will continue to  
recommend Ten Herbs just as heartily  
in the future as I have in the past."

Ten Herbs is being introduced at  
Eckerd's of New Castle, Inc., 30 East  
Washington Street, this city, and is  
sold by all leading druggists through-  
out this entire section.

## More Motorists Lose Driving Right

Sharon And Beaver Falls Resi-  
dents Included In Group  
Last Week

HARRISBURG, Jan. 27.—Revoca-  
tion of the cards of 69 motorists and  
suspension of the driving privileges  
for 55 offenders was announced here  
today by the Bureau of Motor Ve-  
hicle for the week ending January  
23. Restoration of driving rights to  
42 drivers also was announced by the  
Bureau.

Revocations on the intoxication  
charge continued to hold the center  
of the stage. Drivers who lost their  
cards on this count included: S. D.  
Boyle and John Joe, of Beaver Falls;  
Andy Todut, of Sharon.

Of the 26 drivers who lost their driv-  
ing rights because of a larceny charge,  
all but seven are Philadelphia resi-  
dents.

Ten of the 55 suspensions meted  
out were for intoxication and of  
these all but two were non-residents  
of this State.

Seven motorists, all but one being  
Philadelphia men, suffered the sus-  
pension penalty for driving without  
consent.

Failure to file report and appear for  
a hearing caused seven drivers to  
have their cards suspended.

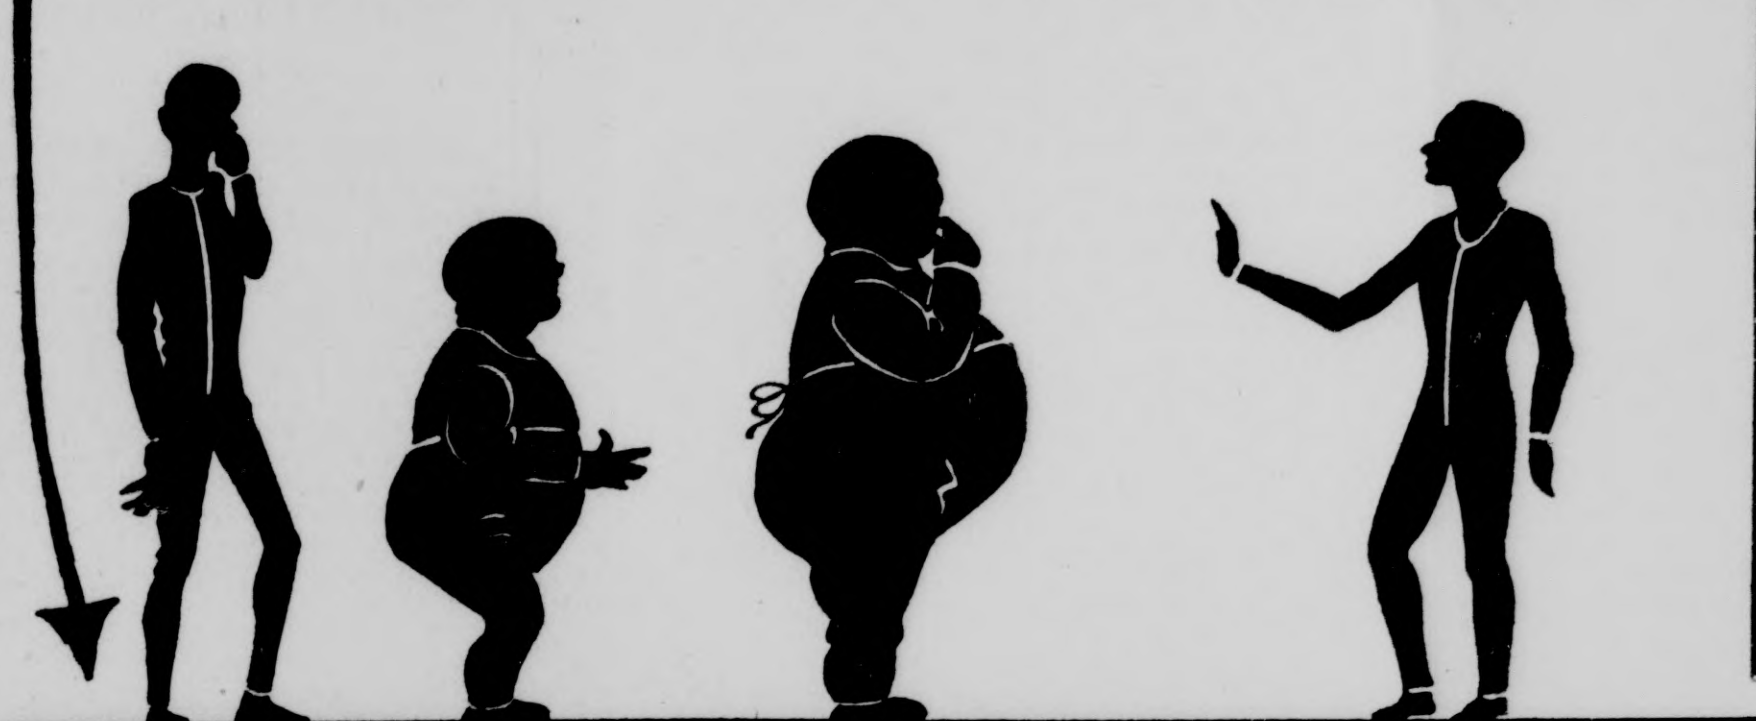

William Vultaggio, of Sharon, and  
Anthony Cappello, of Philadelphia,  
suffered suspension of their licenses  
on a liquor transportation charge.

## Attempt Made To Exterminate Herd Of Valuable Cows

Poison Sprinkled About Barn  
Floor Of Mercer County  
Dairymen By Vandals

MERCER, Pa., Jan. 27.—A vicious  
attempt to exterminate the herd of  
pure bred Guernsey cattle owned by  
Victor Ruppert, Coolspring township  
farmer, is reported by detectives who  
have been investigating the case.

Paris green mixed with salt was  
sprinkled about the barn floor hous-  
ing the herd. Three valuable cows  
are already dead and four others will  
die or have to be killed is the opinion  
of the veterinarians.

The cows were worth \$200 a head,  
the loss being a serious one to Rup-  
pert who has been a dairymen at this  
location for several years. It is the

second case of cattle poisoning in  
county history, the previous instance  
being a similar attempt on a herd  
at Stoneboro. The police say no im-  
mediate arrests but their intention  
to stay on the job until the poisoner  
is found.

**TO COMMIT SIX**

Sheriff Dan Callahan has commit-  
ments for six prisoners to the Al-  
legheny County Workhouse. They  
will be taken there soon.

Among the group is Dan McCrory of  
Greenville, given one year in the  
workhouse for bootlegging. Those  
who claim to know about him say he  
has been engaged in this pursuit for  
several years and always sold the best  
stuff he could get.

The sheriff and his deputy have  
just returned from Farview where  
they delivered Wood McCann, Farrell  
negro, to that institution due to his  
demented condition. His peculiar  
fantasy was the belief that radio  
stock would make him money. They  
could lock up a lot more on that  
charge.

**DRIVER ENTERS PLEA**

C. F. Rhodes of Youngstown, Ohio,  
was sentenced to pay a fine of \$100 on  
pleading guilty to being a hit and skip  
driver here. The involuntary man-  
slaughter charge against him was  
nolle prossed. He is paying the  
parents of the child killed \$200 him-  
self and the insurance company is  
giving them \$2,000.

**ASK TO SELL BONDS**

A petition to sell \$7,000 worth of  
bonds was presented by T. A. Arm-  
strong, attorney for the Peoples Bank  
of Farrell. The order was signed  
by the court.

**POSSESSES BEER**

George Don, aged 51, of New Wil-  
mington township was arrested by  
County Detective Layshook, charged  
with possession of 31 bottles of beer.

**CARS ORDERED SOLD**

Orders were handed down by Judge  
J. A. McLaughry to sell the cars of  
Charles Livermore, Dan Herskovitz,  
and William Vultaggio.

It is claimed by the police that the  
cars were used in the transporting of  
liquor.

They will be sold at public auction  
by the sheriff and the money turned  
over to the county.

**SHEEP CLAIMS FEW**

There have been but two sheep  
claims in Mercer county in 1930 re-  
ports Agent Harry Kigbee of the

bureau of animal husbandry in charge  
of this work.

There were two dogs attacking in  
each instance. The four were shot on  
the spot says Kigbee.

The agent has just returned from  
Crawford county where he assisted  
the agent of that county in investiga-  
tion of several heavy sheep claims.

## COURT TERM OPENS

While there are less than 80 cases  
listed for hearing at the January  
criminal court which opens today  
with very little to dispose of except  
the usual run of liquor cases, the  
county officials here are of the belief  
that the court will run into a two  
week session.

There are several cases which will  
take a lot of time to examine all the

witnesses they say. The usual large  
number of pleas are expected to cut  
down the trial time of the court.

## ORDER VIOLATED

State troopers McEwen, Knudson  
and Harris report a violation of the  
court order of last May enjoining the  
trustees of nine county social clubs to  
admit officers and to keep no booze  
on the premises. The officers re-  
port a recent visit to the German  
Club of Farrell, when the door was  
held on them while a pitcher that  
smelled of moonshine was emptied.

The officers say that the door in-  
stalled has been changed from a  
light to heavy structure with two  
locks on it. It is expected here that  
a padlocking order will be asked.

## DANGERS IN DIETS

TO END FAT

A BETTER WAY

MANY more people would  
fight fat in the right way if they  
did not fear some harm. The  
slender figures, multiplied in late  
years, could be multiplied again.

But the danger lies in starva-  
tion or abnormal exercise. The  
right way is to combat the cause.  
It usually lies in an under-active  
gland. That scanty gland secre-  
tion lets too much food go to fat.  
Modern physicians, in treating  
obesity, feed the lacking sub-  
stance.

That method is the basis of  
Marmola prescription tablets.  
They are prepared by a famous  
laboratory, to offer this right  
method at its best. People have  
used them for 22 years—millions  
of boxes of them. The results are  
seen in every circle. Almost  
everyone has friends who can  
show and tell the many good  
effects.

The Marmola prescription is  
not secret. Each box contains  
the formula, and all the good re-  
sults are explained. The user  
who gains new youth and

beauty, new health and vigor,  
knows exactly why.

If you suffer from excess fat,  
combat the cause. It is a blight  
to beauty and to health. Don't  
starve, but feed the system a  
substance that is lacking. Mar-  
mola tablets do that.

Consider how many have em-  
ployed this method, and for 22  
years. It must be right. Go learn  
what they have learned. Watch  
the results from a box or two of  
Marmola, and let those results  
decide. Start now. Don't delay  
appearing at your best.

Marmola prescription tablets are sold by  
all druggists at \$1 a box. Any druggist  
who is out will gladly order for you.

## New Constitutional Convention Plan Is Sponsored By Norris

Urges New Convention To Eliminate Archaic Sections Of Federal Constitution

Senator Borah Leads Fight Against Proposal To Rewrite Ancient Document

By WILLIAM K. HUTCHINSON  
International News Service Staff Correspondent

WASHINGTON, Jan. 27.—Shall a constitutional convention, similar to that epochal gathering in Philadelphia in 1787, be held to eliminate archaic sections of the federal constitution and adapt America's bulwark of human liberty to modern conditions?

This question agitated constitutionalists on Capitol Hill today with Senator George W. Norris (R) of Nebraska, chairman of the senate judiciary committee, urging such a convention and Senator William E. Borah (R) of Idaho opposing it. Norris declared the constitution should be modernized to include direct election of the president, elimination of "lame duck" sessions of congress and for proper handling of the child labor and inheritance tax problems. Borah opposed it because he would not trust the historic document to a revision in this era of discord.

Prohibition Referendum.

The suggestion of a constitutional convention first came from congressional wets, who looked upon it as a means of achieving a national referendum on prohibition. A number of congressional dries also favored the proposal, since they believe most states are bone dry and would reaffirm their faith in the 18th amendment.

A search of congressional records revealed that 32 states have petitioned congress for a constitutional conven-

tion since 1901. This is the exact number set forth in the fifth article of the constitution, dealing with such a convention, which reads: "The congress—on the application of the legislatures of two-thirds (32) of the several states, shall call a convention for proposing amendments."

Appeals Ignored.

These appeals have been ignored since the 32nd was filed in 1913 because seven of the states applied for a convention to consider an amendment for the "direct election of senators." Congress itself submitted such an amendment to the states and it is now written into the constitution. Until seven more states join with the 25 others, whose requests are still pending, congress will make no move toward calling such a convention.

"I favor a constitutional convention," said Norris. "If I were in a state legislature, I would urge my state to petition congress for such a convention to revise the constitution. There is much archaic law in the document that should be revised to fit modern conditions. For instance, there is the antiquated provision for the election of presidents. There are instances, wherein the constitution works a hardship on liberal states, which take an advance position in modern problems, such as on inheritance tax and child labor issues."

Should Be Revised.

"I am opposed to writing legislation into the constitution but I feel the constitution should be revised to give congress power to deal with modern problems. Conditions have changed materially since the constitution was written and in some instances it no longer fits our modern problems."

Borah's position was opposite. Borah said he did not favor a constitutional convention now for any purpose. If 32 states did petition congress for a convention, he added, he would oppose calling of it.

"If we held a convention now to rewrite the constitution," he said, "we would come out of it without a constitution."

## Your Income Tax

No. 1  
By joint resolution, adopted upon recommendation of the President and Secretary of the Treasury, Congress has reduced by 1 per cent the normal tax on individual incomes for the calendar year 1929. The reduced rates are one-half of 1 per cent on the first \$4,000 of net income above the personal exemption and other credits, 2 per cent on the next \$4,000, and 4 per cent on the remainder, instead of 1 1/2 per cent, 3 per cent, and 5 per cent. The surtax rates on income in excess of \$10,000 are unchanged. The tax rate on the income of corporations and life insurance companies is reduced from 12 per cent to 11 per cent. No change is made in the provision relating to the filing of returns. Returns are required of every single person whose net income for the taxable year was \$1,500 or more, every married person living with husband or wife whose net income was \$3,500 or more, and every person single or married whose gross income was \$5,000 or more regardless of net income. Husband and wife living together may each make a separate return, of the income of each, or their income may be included in a single joint return, in which case the tax is computed on the aggregate net income.

## Receive Many New Members To Church

Soul Stirring Messages At Third United Presbyterian Church Sunday Evening

REV. JAS. M. MCQUILKEN

After a soul stirring message delivered by Rev. James M. McQuilken, Carnegie, Pa., in the Third United Presbyterian church Sunday evening, many accessions were made to the church. Dr. McQuilken used as his subject "After Death the Judgment," and brought the results of the way we live most clearly to the minds of the thousand or more people who packed the auditorium to the doors.

The kiddies' booster club, under the direction of Homer Welsh, sang a number of selections and they will make their last appearance in a body at tonight's service. This afternoon they are being presented with their prizes for attendance.

Dr. McQuilken will use as his theme tonight "Obedience a Test of Religion." The song service will begin at 7:30.

## Thayer Trial Is Near Conclusion

Final Arguments To Jury Are Being Made At Canton, Today

CANTON, O., Jan. 27.—When counsel for the state and defense in the trial of Albert L. Thayer, New Castle (Pa.) architect charged with soliciting a bribe, begin their arguments to the jury here today they will have a mass of evidence to draw from.

Taking of testimony extended over eleven days, ending shortly before the close of Saturday's half day court session.

Thayer, accused of soliciting \$7,500 from George F. S. Melbourne, builder of Stark County's \$1,000,000 hospital, denied from the witness stand Friday that he had ever asked Melbourne for money or that he had ever received any.

The defense introduced an alibi, tending to show that Thayer could not have entered into the agreement charged by Melbourne around Aug. 15, 1927, for the reason that his last visit to Canton in August was on the 8th and that he started on a two weeks' vacation into Canada with New Castle friends on the 14th.

Defense Hit

A damaging blow was received by Thayer's counsel in Friday's session of court when Judge Charles Krichbaum ruled out all evidence tending to support the alibi.

This ruling was based on a provision in the new criminal code which requires defense counsel to give the state a three-day notice of intent to establish an alibi.

There is a slight possibility that the jury will receive the case late today, but it is more probable that the entire day will be taken up by attorneys in making their final pleas, thereby postponing the court's charges until Tuesday.

Prosecutor James M. Aungst, Special Prosecutor William B. Quinn and H. C. Graybill, a regular assistant prosecutor, will make the arguments for the state. Attorneys Walter S. Ruff, James L. Amerman and W. Walter Braham will sum up the evidence for the defense.

## Safety Record By P-O Men

Company To Pay Tribute To 227 Who Have Year's Record

Two hundred twenty-seven car and bus operators of the Youngstown Municipal and Penn-Ohio railways together with their wives will be feted Tuesday at dinner meetings at the hotel Ohio, Youngstown in honor of the outstanding safety record which they set up in the year 1929.

During the last six months of the year not one of these 227 men was responsible for a single accident. That means that out of the whole number of operators on the city railway and bus lines and the interurban railway lines of the Penn-Ohio system more than 60 per cent had perfect safety records for the six-month period from July 1 to December 31 inclusive.

Furthermore 166 of these men or 45 per cent of the total number in the service throughout the year were responsible for not one single accident, no matter how trivial throughout the year.

A feature of both sessions will be the presentation to the 166 men free of accidents for the entire year of certificates of appreciation for their constant safety efforts.

Identical programs of entertainment and addresses will be followed at both meetings. R. N. Graham, manager of railways will preside and will present the certificates to the no-accident men for the year.

The address to the men will be delivered by C. S. MacCalla vice president and general manager of the Penn-Ohio system.

Group singing of safety songs will be led by Lawrence P. Hemenway of the Greenville district. The entertainment features will include accordion solos by Claude Timblin engineer of maintenance of way of the Penn-Ohio system, music by the Penn-Ohio orchestra under the direction of Frank B. Woods and a rural comedy sketch by the Penn-Ohio entertainers, Roy Whittenberger and F. E. Thomas.

A similar celebration for the operators of the P-O coach lines will be held Thursday evening at the Parkman Community hall the operation of the coaches making it impossible for the men to be relaxed at the time of the meetings for the railway and bus operators.

The record set up by the interurban coach operators in 1929 was the best since the inauguration of this service seven years ago. Out of a total of 33 operators 30 were free from accident in the last half of the year and 24 or 72 per cent were free from accident throughout the year.

## Three Deaths From Railroad Accidents

Railroader And Two Others Killed In Accidents Over Week-End

(International News Service)  
PITTSBURGH, Jan. 27.—Three deaths from railroad accidents were reported in this district over the week-end.

John Keist, 44, of Grapeville, was almost instantly killed last night when he was struck by a Pennsylvania railroad express as he walked in Deadman's Cut near Jeanette.

R. O. Hodgson, 45, of Pittsburgh, a conductor of the Pennsylvania railroad, was killed when he stepped from his own train into the path of another when he went to report engine trouble near the East Liberty station yesterday.

Frank Kazmierski, 44, of Douglass died Saturday after both his legs were amputated by a Pittsburgh & Lake Erie railroad train near the Warden mine of the Pittsburgh Coal company, where he was employed.

THE DAYS PASSED SLOWLY FOR THE BRAVE LITTLE BAND OF FOREIGNERS BESIEGED IN THE BRITISH LEGATION IN PEKING BY Hordes OF FANATICAL BOXERS AND CHINESE SOLDIERS. THERE WERE TIMES WHEN IT SEEMED THAT RELIEF WOULD NEVER COME, AND HOPE OF RESCUE WAS NEARLY DESPAIRED OF.

AGAIN AND AGAIN THEIR ASSAILANTS TRIED TO TAKE THE LEGATION BY STORM. BUT EACH TIME WERE BEATEN BACK WITH HEAVY LOSSES. SOMETIMES THE ENEMY ATTEMPTED TO BURN OUT THE DEFENDERS, WHILE THE CHINESE ARTILLERY BATTERED THE BUILDINGS OF THE FOREIGN QUARTER INTO CRUMBLING RUINS.

FOOD AND AMMUNITION RAN LOW, BUT THE FIGHTING SPIRIT OF THE LITTLE GARRISON, SOLDIERS AND CIVILIAN VOLUNTEERS ALIKE, REMAINED UNDAUNTED. THE NUMBER OF DEAD AND WOUNDED STEADILY INCREASED.

FOR SIX WEEKS AFTER COMMUNICATION WAS FIRST CUT OFF, NO NEWS FROM THE BELEAGUERED FOREIGNERS REACHED THE OUTSIDE WORLD. EXCEPT A FEW BELATED APPEALS FOR HELP THAT WERE CARRIED THROUGH THE BOXER LINES BY FRIENDLY CHINESE.

## Hans Wagner Will Attend Hillsville Dinner February 6

Hans Wagner, And Possibly Lloyd Waner Will Be Speakers At Hillsville Dinner

DATE CHANGED FOR ONE WEEK

The dinner-smoker of the Lawrence county league will be held at Hillsville on February 6, it was announced today. This is a change of one week from the original date set by the committee in charge of the affair. It is a chicken dinner and Nick Navarre and Patsy Colucci, two ardent baseball fans and hard workers, have charge of the event. The committee promises something unique in the way of entertainment.

Hans Wagner, grand old man of baseball and former Pirate shortstop, has signified his intention of being present as a principal speaker at the dinner. If Lloyd Waner, the Pirate center fielder, recovers from his recent operation he will also be present at the dinner, it was announced. Paul McCullough, former New Castle pitcher and more lately with Toledo, Minneapolis and Washington, will also be present. Mr. Montgomery of Bessemer, an ardent baseball fan and booster for the Lawrence county league will also be among those present.

In New School. The affair will be staged in the auditorium of the new Hillsville high school. The schoolmen of Hillsville have donated the use of the building for the evening, and the committee is very fortunate in securing such a suitable spot to hold the dinner and smoker. The dinner will start at 7 o'clock. A ten-piece orchestra will furnish the music for the event. A lot of good entertainment has been provided, it is understood. Tickets for the dinner can be secured at the Sporting Goods store in this city.

The dinner is to be served by the ladies of the Methodist church of Hillsville, and they are famed for their delicious chicken suppers.

The affair is open to all who care to attend, but especially it is asked that the Lawrence county league players and officials try and attend, as this is a warm-up for the season that starts in a few months.

## Bethany Defeats Westminster In Game Saturday

Bisons Take Victory Over Titans 31 To 21 In Tri-State Game Saturday

Westminster's winning streak in the district was snapped on Saturday night at Bethany, West Virginia, when the Bisons upset the dope bucket and all the contents by taking a 31 to 21 victory over the Lawther coached machine. The blue and white clad passers had won eleven straight up until Saturday evening.

The end of the first half found Bethany ahead 18 to 13. The second half rally by the Bisons was sufficient to subdue the United Presbyterians by ten-points. Flading, Telfer and Rush were the big guns in the Bethany attack with a total of ten buckets between them.

Delehanty and Rice had the most buckets for the Westminster boys. Passing and dodging with precision Bethany scored time after time with well directed shots at the basket.

The Bethany victory throws the Tri-State conference into uncertain possibilities.

The summary:— Westminster 21. Bethany 31. Baker .. F. O'Donovan. Rush .. F. Kocheran. Telfer .. C. Brownlee. Bamshorer .. G. Delahanty. Flading .. G. Rice. Substitutions—Bethany: B. R. H. n. Westminster: Hamas, Fisher. Field goals—Baker, Rush 4, Telfer 4, Flading 2, Kocheran, O'Donovan, Delahanty 3, Rice 2, Hamas. Foul goals—Bethany, 9 out of 11; Westminster, 5 out of 11. ## Butler Quintet Here Wednesday With Boosters

Butler Team That Handed New Castle Boosters Defeat Will Be Met Here

The strong Butler Armo basketball team, the same five that handed the Boosters a setback at Butler, will be met at the "Y" floor this city on Wednesday night, according to an announcement by Tony Tino, manager of the Boosters today.

The New Castle boys are out to avenge the early setback at the hands of the Butlerites. The score at Butler was 33 to 30. The Armo team is not unknown to New Castle, containing such stars as Homer Rose and Fleming former Grove City College stars, and also La Fevere and Wolf, former members of the Butler High championship floor teams. The Armos are rated the strongest semi-pro team in this district.

The Boosters with a fast lineup of former high school stars have been defeated but three times this year, the Armo team at Butler, the Paulkites at Butler, and the "M" team at Grove City last Saturday night.

Coach Fraser will give the Boosters a hard workout prior to the Butler game Wednesday, and hopes to have the squad in good condition for the tough battle that is anticipated.

## Wilmington High Plays Two Games In Present Week

New Wilmington high basketball team will have two games this week. Tuesday night at the New Wilmington, coach Joe Hartman and his Grove City high tossers will furnish the opposition, and on Friday night it will be Union high at New Wilmington.

Coach Karsten hopes to have the Wilmington boys in shape to grab off a pair of victories this week, but the opposition is going to be keen.

In addition to the regular game for Tuesday evening, a comedy game has been arranged that brings together the faculty and pick-ups of New Wilmington high with the faculty of George Washington Junior high. The Wilmington lineup will include Karsten, Rosy White and Bill Evans. White is postmaster of New Wilmington and Evans is janitor of the school. The Wilmington faculty consists of but two men teachers and for that reason it was necessary to recruit outside players, so Mr. White and Mr. Evans drew the berths.

Friday night Coach Boyd of Union high takes his basketball squad to New Wilmington for a league battle.

## Christians-Mahoning Lead Church League

The second half of the New Castle church duxpin bowling schedule got under way at the Y. M. C. A. last week with the First Christians and Mahoning M. E. teams at the top of the heap with three victories and no defeats. The Central Christians and Congregational are pushing the leaders. One new team has been added to the league in the Second U. P. team and although they dropped three games they are going to make it tough from now on.

Following is the standing for the first games of the second half:

	Won	Lost	Pct.
First Christian .....	3	0	1.000
Mahoning M. E. ....	3	0	1.000
Central Christian .....	2	1	.666
Congregational .....	2	1	.666
Epworth M. E. ....	2	2	.500

## Rivals Confident Of Winning Bout

Tonight's Battle At Jolly Bowl Has Fans Excited As Hour Nears

WILLIS TO MEET HOWARD MAYBERRY

BY ED FRITZ.

Fight fans of New Castle and vicinity tonight will crowd into the Jolly bowl to see Indian Tiger West of Greenville, Ariz., and Henry Firpo of Louisville middleweights meet in a bout scheduled to go ten rounds.

The middleweights arrived here today in the best of condition and the battle should be one of the best that has been staged here. Firpo looks to be drawn fine as a needle point and the Indian's hands are in good shape.

West hopes to turn in a piece of fistic history by being the first to knock out Firpo but Henry says that he will prove to the fans that the Indian is not as good as he and hopes to put the redskin away.

Three Other Bouts. They will weigh in at 160 pounds this afternoon after which they will rest until the bell summons them to the ring.

Howard Mayberry, regarded as one of the best 124 pounders in Western Pennsylvania will take on Johnny Willis, Philadelphia, one of Philadelphia's best colored boys. They meet in the six round semifinal.

Jimmy Hagan of Erie tackles Frankie Fry of New Castle at 160 and Young Zibby of this city will cast punches with Charlie Solomon of Erie at 142 pounds in six round bouts. The first gong will ring at 8:30 p. m.

On account of moderation of the weather and clear highways it is believed the crowd tonight will be one of the best in some time.

## Latzo-Billy Jones To Battle Tonight

(International News Service) PHILADELPHIA, Jan. 27.—Pete Latzo, the popular ex-weight champion of the world formerly hailing from the black diamond regions of Pennsylvania, will give Billy Jones, Pittsburgh negro, a chance to test the ruggedness of his jaw tonight when they hook up in the ten round feature bout of the arena's weekly boxing show.

Latzo has been on the side-lines for months since Jimmy Braddock, Jersey City light heavyweight, broke his jaw more than a year ago. Satisfied that his battered jaw had healed completely and possessed its old-time imperviousness to sleep-producing punches the Scranton ex-miner entered the ring again. In his first bout, a fortnight ago, he kayoed one "Six-Fingered" Clark, a Southern negro. Tonight he will attempt to do the same for the Pittsburgh light heavy.

## Duquesne Wins Over Thiel 18-16

The Duquesne university basketball team ran into a tartar at Thiel on Saturday night, but managed to win out 18 to 16 over the Lutherans, in an interesting battle.

Geneva College handed John-Carroll of Cleveland a setback 36 to 26 in a game in the Ohio City on Saturday night. The Geneva team rang up three victories during the past week by stopping Carnegie Tech, Waynesburg and John-Carroll.

Duquesne turned in two victories against no defeats for the past week taking Bethany at Pittsburgh and Thiel at Greenville.

## Jack Shea Wins Skating Honors

(International News Service) ALBANY, N. Y., Jan. 27. — Jack Shea, Lake Placid veteran, today held the speed skaters' crown of the Eastern United States. Skating at top form yesterday he defeated Irving Jaffe of New York and other stars, winning the 220, 440 and 880 yard tests. He lost the two mile special race to Jaffe.

RUBE WADDELL, THE GREAT ATLETIC PITCHER, ONCE CALLED IN HIS OUTFIELD AND THEN STRUCK OUT THE OPPOSITION.

A THOROUGHLY TRAINED POLO POLY CAN GO THROUGH A GAME WITH A DUMMY ON HIS BACK, INSTINCTIVELY FOLLOWING THE BALL.

## Sport Curiosities

Break knockdown and kayoed episodes abound in fistic annals, the most classic of all being that celebrated double K. O. in which the referee picked Ad Wolgast from the floor (sure he was champion, then, wasn't he?) and counted Joe Rivers out after those slugging lightweights had crashed each other's buttons with simultaneous rights. As gravely freakish a knockdown as ever occurred happened recently in Chicago when Bud Taylor rushed through the ropes on top of Earl Mashe, who clambered back in five ticks of the clock and so won the bout on a technical knockout. Until the first round ended, he was rushed to a hospital where the good news came that Davies was not seriously hurt. The same night, Steve Rocco bumped Willie Davies through the ropes in a flyweight battle at Toronto. Willie was stunned when his head whacked the press table and so the bout ended. He was rushed to a hospital where the good news came that Davies was not seriously hurt. Everyone will recall that Jack Dempsey had far better luck when Luis Firpo sent the old champ heels up over the ropes with one berseck rush in their Polo Grounds classic.

The hard-bitten tiger-man spread-eagled a reporter's type-writer, and for self-protection some scribes cushioned Dempsey's fall. He returned to the ring in time to pole-axe the groggy "Wild Bull" early in the next—the second—round. That was the warmest knockdown carnival ever staged in less than two rounds of a heavy-weight championship bout. Dempsey had Firpo down seven times before his own thrilling trip through the ropes, and had been dropped to his knees for an instant with the Argentine's first punch as the opening bell echoed. After the scramble back from press row Jack slammed Luis down three times before the latter was counted out.

But a knockdown record for all time must have been set by Vittorio Campolo in one of his early starts against Michele Ferrara, an Argentine bouncer. In less than three rounds the Pride of the Andes floored "Little Firpo" Ferrara thirty-five times.

"That is one for the book!" sports bugs may exclaim.

"For a fairy book!" some of us may add.

All of which intimates that Buenos Aires boxing historians may have but little to learn from our Barnums, Rickards, Dan Morgans, Jimmy Johnstons and Leo P. Flynns in the art of exaggeration.

Joe Cantillon Is Near Death

Grand Old Man Of Baseball Is Reported Dying In Kentucky Home Today

INTERMEDIATE NEWS SERVICE. HICKMAN, Ky., Jan. 27.—Joe Cantillon, pioneer baseball man, today was reported near death at his winter home here where he suffered a paralytic stroke several days ago. A Catholic priest administered last rites of the church yesterday.

Cantillon, who has been in professional baseball for 46 years, is now 64 years of age. He started as a ball player at Green Bay, Wis., in 1884.

The veteran has developed some of the greatest players known in the baseball world, including Amos Rusie, Rube Waddell and Walter Johnson.

Last year Cantillon was supervisor of umpires in the American Association.

## Three Close Games At "Y" Saturday

Third U. P., Mahoning M. E., And Toddy's Five Take Close Victories

Three close games and also interesting were staged at the "Y" floor on Saturday night. Two games were played in the Church League and one in the City League.

In the first game the Third U. P. boys managed to nose out the Croton M. E. 25 to 24, in a thriller. The score at the half found the Third U. P. ahead 15 to 10, Croton outscored the Third U. P. team in the second half, but fell short one-point. Nolan, Colaluca, Mansfield, and R. McNickle played the best basketball.

Mahoning Team Wins

The Mahoning M. E. team defeated the St. John's Lutherans 16 to 13 in the second game of the bill. At the half the Mahoning team was ahead 9 to 4. The Lutherans outscored the Seventh Warders in the second half 9 to 7, but were short in the first half and could not make up the difference. Carlson, Daugherty and Gilbert featured for the losers, with Brooks, Spike and Ingram the best for the Mahoning team.

The Toddy's was extended in the night-cap to down the Penny team 33 to 30. The end of the first half found the Toddy Five heading by a score of 17 to 8. The second half found the Penny boys fighting hard for a victory and outscoring the Toddy's 22 to 16. Ciccone, McIntosh, Parker and Sam Richards led the scoring for the winners, with Bilger and Eagan the best bets for the Penny team.

The City League game was the final one of the first half of the season. The Boosters finished first, with the Toddy team in second place.

## Boosters Nosed Out Saturday By Grove City Five

Company "M", Grove City, Defeats New Castle Boosters 33 To 31 In Thrilling Game

The New Castle Boosters winning streak was snapped at Grove City on Saturday night, but not until a real basketball battle had been staged. Grove City's Company "M" quintet won the contest 33 to 31, after an extra five-minute period had been needed to decide the issue.

The score at the end of the first half found the Boosters led by Kulich holding a 17 to 11 lead. The second half found the Grove City boys perking up somewhat and led by Briggs, and Faulis soon had the score on even terms and at the end of the game the score stood at 31-31.

Faulk Wins Game

In the extra period it was a field goal by Faulis from the middle of the floor that gave the Troopers their victory by a slim margin. It was one of the fastest and most exciting games staged on the Grove City armory floor this year.

Kulich and Sid Lockley played good ball for the Boosters, with Briggs and Faulis the works for the winners.

The summary:— Grove City 33. Franklin .. F. Briggs. Kulich .. F. Milsp. Alexander .. C. Patterson. Uhl .. G. Hall. S. Lockley .. G. Faulis. Subs.—El Lockley, Smith, Negri. Field goals—Kulich 5, Franklin 2, Alexander 2, Uhl 2, Sid Lockley 3, Briggs 4, Milsp. 3, Negri, Faulis 5. Fouts—Boosters, 3 out of 8. Grove City, 7 out of 12. Referee—Bohlender, Grove City high.

## Five Games In Boy's Circuit

Five games were played in the boys' league at the "Y" on Saturday. The Castles nosed out the Eagles 23 to 22 in a fine game with Deep, Long and Hoose the big stars. The Smoothies swamped the Fred Rentz News Boys team 49 to 15, with Jones the big star with 13 field goals.

The Fire Flies beat the Hi-Y club 33 to 24 in a fine scoring game with Isoldo, Herbold, Maki and Helle the big guns. The Red Birds toppled the Imperials 36 to 6 in a lopsided battle, with Hiles, Grommes and Cooper the big stars. The Laurels handed the B. V. D. team a setback 16 to 11 with Rogers, Caven and Semlar the big noises.

Tonight starts the second half of the City Basketball League at the "Y" floor. The game tonight will commence after the two church league games have been disposed of.

The Penny railroad team stacks up against the "Y" Seniors in the shove-off of the last part of the season. The Boosters won the first half but they are destined to run into a lot of stiff competition in the next few weeks it is understood.

## I. O. O. F. Roll Call Attracts Large Crowd On Saturday

Enjoyable Program Is Presented  
At Annual Roll Call Rites Of  
Local Odd Fellows

ELLWOOD CITY, Jan. 27.—A large number of members were present at the annual Roll Call ceremonies of the local I. O. O. F. which took place in their lodge rooms Saturday night in the Schweiger building.

An enjoyable program was presented as follows:

Opening selection—K. of P. orchestra.

Opening Ode—Sung by the assembly.

Prayer—Rev. J. H. String of Zelenople.

Selection—The orchestra.

Rev. J. H. String, eminent pastor from Zelenople, then gave a stirring address on the subject of "Friendship, Love and Truth," which greatly pleased his listeners.

There followed a musical sketch by the mandolin club assisted by William Cowan, who took a characteristic role, which added much to the success of the presentation. Miss Hazel Ziegler contributed a reading; and a trio comprising Paul Winter, W. Ray Smith and John Brown gave two selections. The Roll Call was then solemnized and John Brown rendered a solo.

Herman Hess, past grand master, from New Castle then made a few remarks which concluded the pleasant program. The evening festivities closed with the serving of delicious refreshments.

## Takes to Air in Sunny South

Mrs. John Trumbull, wife of the flying Governor of Connecticut and mother-in-law of John Coolidge, took her first sky ride in the cabin of the airship Vigilant, at St. Petersburg, Fla. (International Newsreel)

## CLEVELAND GETS NEW MANAGER

Once again Cleveland draws attention to itself as the laboratory of politics as it prepares for a trial of the city manager form of government under a new leader, David E. Morgan, who is to succeed William R. Hopkins, manager for six years. Hopkins, left, was ousted by the council after a break with the Republican organization and its leader, Maurice Maschke, upper right. Morgan is at lower right.

## Bickett Regrets Necessity To Leave Ellwood

ELLWOOD CITY, Jan. 27.—M. A. Bickett left this morning to resume his duties in connection with the P. and L. E. railroad in Monessen, after spending the week end here with his family on Orchard avenue.

Mr. Bickett expressed regret that his removal to Monessen necessitated his resignation from the Chamber of Commerce board of directors. He has been actively affiliated with that organization for several years, and has been a member of the board of directors for the past seven years. He is also a charter member of the organization and has watched with interest, its growth to its present gratifying membership.

Mr. Bickett's family will join him in Monessen in the summer, immediately following the closing of the schools here.

## Bell Company To Build New Conduits Here

American Telephone and Telegraph company today sent a communication to the city council, meeting in the city building requesting permission to construct conduits, all work to be done under supervision of city officials and to be paid for by the company. Space in the municipal conduit would also be rented.

Conduits would be built in several sections, namely Butler avenue; between Franklin avenue and the city line; between Frank avenue and Vogen street to Butler avenue, on the East Side.

A conduit also would be built in Greenwood avenue between West Washington street and State street; also on State street between Greenwood avenue and the city line.

There will have to be manholes, the letter said but the locations as yet have not been designated.

The company also requested permission to rent space in the conduit necessary to extend cables on streets where city conduits are located.

No conduit will be built parallel to the city conduit.

The ordinance has been ordered drawn.

## Historic Mill Is Doomed To Decay

(International News Service)

CONNELLSVILLE, Pa., Jan. 27.—An old mill in Perryopolis near here which once belonged to George Washington seems doomed to fall in further disrepair and crumble into dust following the announcement that the campaign started last year to rebuild the mill has been abandoned.

The campaign with \$10,000 as its goal was started last July through the efforts of the miller's trade publication with Howard Adams cashing in a Perryopolis bank taking a active part as the treasurer of the fund.

Adams returned some \$1,200 to the donors recently after the time limit set for the raising of the funds had expired. The campaign had to be dropped.

Public spirited residents of the district have expressed regret that the old mill reminiscent of the days when the first president was a business man of the first water in the old colonial days should be allowed to fall into decay and ruin.

## Carnera Arrives In Chicago For Bout On Friday

(International News Service)

CHICAGO, Jan. 27.—Only 269 pounds of boxing flesh was trundled into a gymnasium ring here today to show Chicago for the first time what the Mastodon from Italy known as Primo Carnera looks like in ring trunks.

The big fellow from Italy is starting to get steam up for his appearance at the Chicago Stadium next Friday when he meets Elazar Rioux, another big fellow, but not quite his equal in tonnage.

Accompanied by a party of nine persons, Carnera arrived here yesterday from New York.

## Dick Shikat To Risk His Title

(International News Service)

NEW YORK, Jan. 27.—Dick Shikat, world champion wrestler, will risk his laurels at the Seventy-First Regiment Armory here tonight against Jim McMillan, former Illinois grid star.

Jim London, Greek title-holder, who has been starred from Maine to California, opposes George Hagen, the marine, in the supporting role.

Another match will feature Ference Holuban, Hungarian, European champion, in his debut here against Jack Washburn.

## Schmeling-Maloney Signed For Battle

(International News Service)

NEW YORK, Jan. 27.—Max Schmeling will emerge from his barbed-sauerkraut entanglements be-

fore the end of March to meet Jimmy Maloney, of Boston, in some German ring, by way of warming-up the old target eye for the big sharp-shooting that is to come later on. It will be Schmeling's first start since the New York boxing commission put the bowser on him last summer and it also will be his last before going in with the Sharkey-Scott survivor on June 26 for the heavyweight championship of the world.

## Welker Cochran Beats Kieckhefer

(International News Service)

NEW YORK, Jan. 27.—Welker Cochran today held the scalp of Augie Kieckhefer, winning his three-cushion billiard match against the Midwesterner 700 to 614. Cochran took the last two blocks 50 to 24 and 50 to 34. In the last block Cochran had a fine run of ten.

## Looking For Irene, Police Get Another

BUTLER, Pa., Jan. 27.—Glenn Harrison, alias Harry Smith who was arrested by state police when a hunt was being made for Irene Schroeder and her companions has been in the Butler jail for two weeks on charges of transporting a stolen automobile. He was released by Judge James O. Campbell and started to Detroit for a day in charge of an officer from that city. It is charged that Harrison escaped from a detention home, several months ago.

Don't let them rattle you, Mr. Hoover. A dozen frogs make a lot of noise in a millpond, but the mill grinds the wheat.

## Don't let SORE THROAT get the best of you...

FIVE minutes after you rub on Musterole your throat should begin to feel less sore! Continue the treatment **once every hour for five hours** and you'll be astonished at the relief.

Working like the trained hands of a masseur, this famous blend of oil of mustard, camphor, menthol and other ingredients brings relief naturally. It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by doctors and nurses. Keep Musterole handy—jars and tubes.

To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

## The Way OF THE World

By GROVE PATTERSON

#### COURAGE.

One may or may not agree with Nicholas Murray Butler when he condemns the American people to do something about the tragic lawlessness that has followed the incompetent attempt to enforce the eighteenth amendment. This writer while not agreeing with Dr. Butler on all points admires his courage for speaking out in meeting. The president of Columbia university lives on terms of familiarity and friendship with some of the greatest preachers and religious figures in America. His voice is raised often in the city of New York on the side of good government but he does not believe in the prohibition experiment as President Hoover calls it. What the country needs is greater frankness and sincerity on the part of the men in high position.

#### HONOR NOW.

Newspapers or organizations which offer trophies to be awarded to citizens for outstanding service are to be commended. There is too much deserved honor which is never brought to light until the chief beneficiary is dead. A man who deserves the reward of honor the rich reward that comes only from the openly expressed appreciation of his fellow men whom he has worked for—deserves it here and now.

#### SILENT WAR DRUMS.

One reads that President Von Hindenburg offers a cup for a yacht race to be participated in by American and German yachtsmen. How strangely and pleasantly such news falls on the ear in comparison with the news that came from the "Von Hindenburg line" only a few years ago. The Creator was especially good when He gave men short memories.

#### FORGETTING.

Let's never complain about our short memories. Be glad for them. It is so much more important to forget, most of the time than to remember. There are a few things worth

remembering. There are thousands of things that deserve eternal forgetting. If you can learn to forget your grievances for example you have paved the road to peace of mind.

#### IMPAIRMENT.

Fear impairs. Fear makes you incompetent. Fear puts you in the way of making mistakes. Fear is like drunkenness. It befuddles the mind and tremendously increases the likelihood of error. Just use a practical measure to say nothing of the comfort it will give your soul you ought to eliminate fear.

## Tent Hall News

Mrs. Earl Cover called on Mrs. Gladys Taylor Rheule in Brownlee Woods, Thursday. Mrs. Rheule is convalescing at the home of her mother, Mrs. Sam Taylor.

Marion, daughter of Mr. and Mrs. C. L. Carlisle underwent an appendicitis operation at the city hospital in Youngstown, Tuesday night. She is recovering as well as can be expected.

Mrs. Mattie Phillips and L. A. Phillips visited in New Bedford, Tuesday with her father, Al Ruby.

Frank Cover and Junior visited Wednesday with his sister, Mrs. John Kuhn.

Elmer Baird was a business visitor in New Castle, Friday. Friends here of Miss Blanche McCullough were sorry to hear of her death Thursday at her home in Youngstown.

Miss Ruth McCurdy is assisting with the work at Park Baird's. Mrs. Baird is slowly recovering from a severe cold.

Mrs. Will Shehy was removed to the home of her parents, Mr. and Mrs. George Scott in New Castle, Friday, where she will take treatments in interest of her health.

Those from here who attended the mid-year Efficiency Conference banquet at New Castle last Thursday evening were: Mr. and Mrs. Elmer Baird, Mrs. Roy McBride, Mr. and Mrs. George Allen, and Rev. A. G. Montgomery, Pulaski District was awarded the shield. They were also the winners last year.

AMERICANISM: 120 million people attending to business in obscurity while headlines are made by a few thousand who wouldn't be missed.

## Thrift Program At McGill School

Featuring Is Original Play Written By 3A Class; Many Take Part

A thrift program was presented by the lower grades of the Arthur McGill school at their usual weekly assembly Friday morning. Featuring the program was an original play written by the 3A class. The program follows:

"Morning prayer."  
Scripture reading—Dorothy Aubergier, 3B.  
"America."  
Flag salute.  
Thrift talks—Ruth Cartwright, Mae McDowell, Virginia Morrison, Alice Sewall, David Taylor, 3B.  
Dramatization, "Fred's Bank"—I.B. Fred—James Patterson.  
Pennie—Phyllis Dean and Vernetta Duff.  
Nickel—Billy Smith.  
Exercise, "My Bank"—I.B. Reader, Agnes Jane Taylor.

## AVOID UGLY PIMPLES

Does a pimply face embarrass you? Get a package of Dr. Edwards Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights, if you are like thousands of others.

Help cleanse the blood, bowels and liver with Dr. Edwards Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. Thousands who take Olive Tablets are never cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition, pimply face.

Olive Tablets are a purely vegetable compound; known by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take nightly for a week. See how much better you feel and look. 15c, 30c, 60c.

Play, "How Carl Learned to Save His Money"—3A.  
Carl—Carl Lels.  
Betty—Elizabeth Mayers.  
Mother—Edwina Raub.  
Fairies—Marilyn Burkley, Lois Leddy, Arnetta Boul, Rosetta Trehanne, Rose Hagner, Miriam Shaffer, Gertrude Stevens.

Imps—Jimmy Banks, Wilbur Sloan.  
Jack Colley.  
Ragged men—Alex Miles, David Fehl, Warren White.

Playmates—Hathaway Pattison, Marie McCann, Isabel McChestney, Jane Haven, Ralph Salmon, Carl Ryhal, Sherman Samuels, Chalmers Spruill, Sandman—Sam Byers.  
Announcer—Jane Haven, 3A.

## Shoots Himself Through The Mouth

ALIQUIPPA, Pa., Jan. 27.—Dmit Liska, 43, 1217 Sheffield avenue, killed himself with a revolver, police report. It is said the man returned home from work, ate his dinner, dressed and then walked down the stairway, where his wife was entertaining two neighbor women. He put the revolver in his mouth. The discharge tore through the top of his head and he was killed instantly.

Jack and Pete went up the street at sixty miles or better; Th' cop behind Was real unkind—They're seeking bail by letter.

The old Mississippi is much like a rich social leader. A lot of little rivers must contribute the material to make the big one swell.

Excitement over a public question would seem alarming if people didn't get equally excited about a visiting prince.

## Plaingrove School

#### RAISING FUND

The first, second and fourth rooms under the supervision of their teachers have been having a series of candy sales. The candy, which is of the choicest varieties, is very tempting to the basketball squads.

#### ELECT TEAM CAPTAINS

The freshmen girls met in room 5 Tuesday and elected Jane Otremba as captain of the freshman basketball team.

The junior and senior girls met on Wednesday in the auditorium and elected Lillian Patterson as captain of their team.

PLAINGROVE SHARES VICTORY  
January 17 the Plaingrove basketball squads motored to Princeton to play their fifth league game. Plaingrove boys came out victorious with a score of 26-7. The girls were defeated by a score of 16-9. Plaingrove boys have the excellent record of five league game victories.

The next and last league game will be played January 31 at Plaingrove auditorium with Enon Valley.

NOON BASKETBALL GAMES  
Much interest has been created by the basketball games at the noon hour. The junior and seniors girls' team defeated the freshman team on Wednesday by a score of 8-4. The junior and senior boys' team won a victory from the sophomore team by a score of 20-16.

School reporters, Lillian Patterson and Elva Hohmann.

team defeated the freshman team on Wednesday by a score of 8-4. The junior and senior boys' team won a victory from the sophomore team by a score of 20-16.

SKATING SEASON HERE  
The boys and girls welcomed the cold season which made it possible for their annual skating parties on the pond below the school.

THROWN FROM AUTO  
Dies As Result  
SHARON, Pa., Jan. 27.—Eliab Reese, 62, of Sherman avenue, is dead as the result of injuries sustained in an auto collision at Budd and South Dock streets. He succumbed in Buhl hospital last evening.

Reese was a passenger in a car driven by Frank Lary, Stambaugh avenue, which was struck by a machine operated by H. S. Garster, Marion, O. Reese was thrown out of his head.

## Prayer In Congress

The house met at 12 o'clock noon and was called to order by the speaker.

The chaplain, Rev. James Shera Montgomery, D. D., offered the following prayer:

We praise Thee, of God, that while the ages have come and gone no higher ideal has ever been given to the children of men than that expressed and exemplified by Jesus of Nazareth. He still remains as the ethical standard toward which the world must look; His star is in the firmament of humanity's hope. As nations are in commotion, oh, may they look upward and with trembling appeal find in Him their very souls; in their doubt and dread He will come into their lives. God Almighty, we would that all men everywhere would proclaim Him the Lawgiver of heaven and earth. Glory be unto His excellent name. Amen.

Yet in the summer, when the indoor temperature is 90, the doctor doesn't say your cold is a result of having the house too hot.
